MEMORANDUM

THE WHITE HOUSE

WASHINGTON

January 19, 1972

ADMINISTRATIVELY CONFIDENTIAL

MEMORANDUM FOR: H. R. HALDEMAN
FROM: BRUCE KEHRLI *BAK*
SUBJECT: New Hampshire

The January 19th, 1972 News Summary contained the following paragraph:

'McCloskey predicts lagging support in New Hampshire will force RN to campaign there before the primary. McCloskey again said he wouldn't be surprised to see RN stop off in New Hampshire enroute home from Peking, but said, "I don't think he will win." Pete said anti-RN sentiment is running strong in N.H. and that he doubted that RN would come even close to the 78% of '68. "The key issue... is that people no longer believe their Pres., whether on the war, inflation, unemployment or pollution control," said McCloskey.'

It was requested that efforts be stepped up to reduce the estimate of 78% in New Hampshire.

Gordon Strachan will relay this request to the appropriate staff member at the committee.
