STATEMENT RE FORMATION OF COMMITTEE

A few of us have decided to work on our own to bring the Nixon story before the American people. We view, as a National asset of the first magnitude, the qualities of experience, judgment and character developed and demonstrated by Mr. Nixon in meeting the challenges which have been put to him. Certainly, Vice President Nixon has received a training for the Presidency which is unique in our history. For almost seven years he has participated in vital National decisions and taken on tough assignments involving foreign policy and diplomacy, National security and other important domestic questions. We find the philosophy and the proposals which he has put forward, attuned to the challenges and the opportunities confronting us. We see an opportunity to render an important service by drawing together the Nixon story and the Nixon political philosophy and bringing it before the American people at this time.

Suggestion: J.C. Folger, former Ambassador to Belgium and former Chairman of the Republican Finance Committee has consented to be our Finance Chairman)

modent modent The general feeling of the nation's press seems to be that Nelson Rockefeller has now "won his spurs" as a political leader and future shining star of the Republican Party.

As a Republican who is vitally concerned with the future of his party and the urgent need for rebuilding of same, I would like to express a dissenting viewpoint.

Rockefeller, with his program of tremendous government spending and huge sugar-coated tax increases, does <u>not</u> represent the progressive Republican viewpoint which believes in the elimination of all non-essential government spending and the reduction of tax rates in order to encourage individual initiative.

When, and if, Rockefeller devotes as much pressure toward accomplishing basic Republican goals as he has toward furthering the "soak and spend" theory, then, and only then, will he figure as a strong potential leader of the party.

Household Hardware

BURLINGTON, VT. October 1, 1959

Mr. Robert Pinch, Administrative Assistant to Vice President Richard Mixon, Senate Office Building, Washington, D. C.

Dear Bob:

I much enjoyed our brief meeting in Springfield two weeks ago, and our recent chat on the phone. I understand that Doug Cairns is trying to reach you on the phone, and when he does it may be that much of what I have to say herein will then be superfulous. In the meantime I

feel it needs saying.

l. It appears to the naked eye that the Vice President feels that he must not take any active steps at this time which are clearly in the direction of seeking the Presidential nomination. It also appears that he would prefer that his friends are not at this time obvious in their promotion of his candidacy. Some of this I gather from your remarks in Springfield that you would not want us to make any public noise in his behalf at this time, partly I assume this is the feeling from the obvious national lack of public activity on his behalf.

2. What is happening in Vermont makes me want to mak you to look closely at the strategy with an eye to revision and reappraisal. The logic on behalf of such a need does demand an assumption that Vermont is somewhat typiwal - which it indeed may not be. For what little it is worth, however, may I tell you that I believe that what I am about to relate Vermont-wise has equivalents in other States - at least in both Pennsylvania and Massachusetts. In both of these I have close business, political, family and personal friends who tell me stories almost exactly like the one here in Vermont.

I have close business, political, family and personal friends who tell me stories almost exactly like the one here in Vermont.

3. Enclosed are first page, first column stories appearing September 28th and 29th in the Burlington Pres Press, which is circulated to more than one out of every four Vermont homes. The perhaps not too obvious point is that (a) those who attended the breakfast with Rockefeller were to a large degree "Administration men" - people close to and appointed by Gov. Stafford, and (b) almost everyone of those who attended were Elsenhower boosters in the big "shuffle" we had up here in 1952, which resulted in the first instructed delegation (for Ike) from Vermont in history.

4. As I told you I suspected at the time of our meeting in Springfield, George Aiken would appear to be in on the act. His remarks are not, for him, either non-committal or impartial. This means to us that Win Prouty must at least be considered more likely to be for Rockefeller, and that what we call the "Gibson machine" is active for

Rockefeller.

What follows is clearly presumptious for me to say, because I am mostly a businessman while you follows have had a great deal of experience in politics. If what follows is true, it is true in spite of my experience rather than because of it.

A. Almost without saying it gows that the Rockefeller strategy is a "wear-em-down" one - predicated on the augmentness of the Vice President's position of being personally too early, and against a "candidate" who hasn't even said he would run - and has actually said he would not.

B. Given conditions such as exist here in Vermont, such a strategy could easily succeed. With a continuation of what we have already seen, it would not take too long for the public to assume that it was Rockefeller who was "the man to beat" rather than Nixon all the while Rockefeller having nothing at all to lose, because he isn't even an acknowledged candidate. He is a man who can rig it so he has to be "drafted", obviously a tough thing for a Vice President to accomplish. On the other hand, the Vice President cannot gain from accepting Rockefeller's strategy because it is obvious that at the very least Rockefeller is all the while picking up some strength,

very least Rockefeller is all the while picking up some strength, while the Vice President cannot conceivably pick up any.

C. As they are doing everywhere, the Rockefeller men argue that he can win the general election, which is a presumption, but a positive one. Most Nixon backers, on the other hand, argue back that he can too, which is a negative position.

D. It seems to me that, here in Vermont at least, the following are required very soon. I don't mean with full blast activity, but starting now, and swelling apace:

\$\text{\$01}\$. Planned, scheduled statements by appropriate well-known Vermont Republicans which put Nixon forward positively, and which are made personally, so far as public knowledge is

which are made personally, so far as public knowledge is concerned, rather than with Nixon' endorsement or encouragement. (2). The commencement of an offensive, without consideration or mention of Rockefeller, which emphasizes that the Vice President was part of the team which we in Vermont helped to select in 1952, of which we were then, are now, and have ever since been proud.

(3). Statements, not "tied down" by relation to the seeking of the Presidential memination which emphasize that Nixon has learned more, accomplished more, and brought more dignity and purpose to the office of Vice President than any other

Vice President in history.

(4). After a few months of this, and before rather than after Rockefeller Clubs spring up "spontaneously" all over New England, we "spontaneously" start Nixon for President Clubs, saying publicly as we do, "The Vice President is obviously very busy being Vice President. He does not know what we are doing, and may not even publicly approve. We think he has done such a fine job, however, that it is important that we move in his behalf in order to make sure that our Party has him as its candidate and that we have had time to tell his story to all the voters of both parties."

I have learned since writing the above that you have talked to both Doug Cairns and Frank Davis on the phone. We are planning to meet with you and Leanard Hall at upm on October lhith. We will have five or six people with us we want you to meet. They are all "solid" and

confidential people.

You will perhaps find it more convenient, schedule-wise, to plan to fly in to Burlington, rather than Montpelier, arriving a little earlier and advising us to meet you at the airport and drive you over to Montpelier when we go.

Per your conversation with Doug, we have made reservations for you in his name at the Tavern in Montpelier for the night of the litth.

Thanks for your attention to my thoughts.

Sincerely,

Richard A. Snelling President

September 30, 1959

The Honorable Richard M. Nixon Vice-President of the United States Senate Office Building Washington, D. C.

007 8 1959

Dear Mr. Vice-President:

I am writing to you as the publisher of a well read and, I believe, well respected Vermont weekly newspaper,

I am writing to you in the conviction that the best interests of the United States will be served if you are elected in 1960 to succeed Dwight Eisenhower as our President.

On a narrower range, I write as a Republican who believes very firmly that the best interests of a strong Republican Party will be served if you are our candidate in 1960.

Vermont is a small state; certainly there are other larger delegations that are much more important for you to secure in your bid for the nomination.

Yet, I hope that Vermont will be in your column at convention time.

I am enclosing the front pages of the Burlington Free Press for September 26, 28 and 29. This tells of activity in behalf of Governor Rockefeller here over the weekend. For your information, the names connected with his cause are well-known and respected. They will undoubtedly attract many more followers.

As far as I can determine (and I have been an outspoken Nixon supporter since it appeared that there would be a contest for the nomination) there has been no organised Nixon activity in this state. I know that you have a great deal of latent support—most of the weekly newspaper editors seem to be behind you. I do hope that your support will not remain latent until it is too late and the Rockefeller forces have beat us to organization and corraling of state convention delegates.

I might add that while State Chairman Janeway has indicated he is for you, most of the public pronouncements have not been by people who would

The Honorable Richard M. Nixon September 30, 1959 Page 12 —

inspire much confidence or draw much of a following-regardless of how right they are in this particular instance. I hope that your organization in Vermont is chosen with some care—and soon. For your information, there are many young, and progressive Vermonters who are behind you. Don't have everything run by the older, ultra conservatives.

Sincerely,

PROCTOR H. PAGE, JR. Publisher
