Mr. Robert Haldeman

Dear Bob:

First of all, congratulations on the convention success. I thought the entire matter, including the Vice Presidential nomination, was masterfully handled.

I would like to propose a project which I feel could be very important to the campaign. I suggested a similar approach in 1964 and, although everyone agreed it should be done, nothing was done due to the lack of organization.

My proposal is designed to overcome the only hurdle which is so far uncontrollable, namely, the "handling" of the campaign by the news media. I am sure you are all familiar with the many slanted statements and misrepresentations already revealing themselves, i. e., NBC's coverage and commentary concerning Mr. Nixon's acceptance speech.

Consider for a moment this scenario. It is two weeks before election. The polls indicate a very close race or that Nixon is behind. Huntley, Cronkite, Smith, etc., have given Nixon and the Republicans the same treatment afforded Goldwater in 1964. Let us assume for a moment that at this crucial point in the campaign, the Republican National Committee announces that it would like to demonstrate to the American people that they have been completely misled by the media. On all major television stations a program is presented consisting of film clips of television news broadcasts, with appropriate commentary. This program clearly demonstrates the following:

1. Whenever the Republican candidates are mentioned, the commentator not only uses a grim tone of voice but he actually scowls. Whenever the Democratic candidates are mentioned, the commentator uses an approving tone of voice and his facial expression is pleasant in all respects.

2. Most times that Nixon's campaign is reported, it is by way of commentary. Most times when Humphrey's campaign is reported, a film clip of the speech is shown with cheering crowds. In addition, most of these clips consist of Humphrey attacking Nixon rather than addressing himself to any campaign issue.

Mr. Robert Haldeman
August 14, 1968
Page 2

3. In most instances that Richard Nixon is mentioned, the commentator just uses the name Nixon, not Richard Nixon or former Vice President Nixon. On the other hand, whenever Hubert Humphrey is mentioned, it is almost always Vice President Humphrey, never just Humphrey.

4. The time devoted to Nixon and the Republican campaign is substantially less than the time devoted to Humphrey and the Democratic campaign.

5. On many important issues, the Republican candidates are misquoted, quoted out of context or editorialized. This is proved by presenting film clips of exact speeches and contrasting these film clips to the reporter's comment thereon.

6. The adjectives used in describing the Republican candidates are "weak", "stern", "grim", "ineffectual", "boring", "tired", etc. The adjectives used in describing the Democratic candidates are "serene", "sincere", "forceful", "confident", "crisp", etc.

I have described above a not too exaggerated replica of what actually happened in 1964. There is no doubt that these tricks clearly influenced the voters' image of the candidates and the campaign issues.

It is my notion that it is imperative to tape all of the major news broadcasts and monitor them for content. It is also imperative to be in a position to replay by way of tape recording any and all of our candidates' remarks.

There is no doubt in my mind that if these practices are repeated not only can an effective case be made to the American people that they have been "taken", but a lawsuit can be filed for "equal time" to prove it. Equal time does not mean commenting adversely on one candidate as against airing a speech of the other.

I repeat that this monitoring can be done by volunteer help. I also repeat that if we do get fair treatment or if we seem to be assured of victory, the project can be scrapped. But in any case we should be prepared.

One more thought. Undoubtedly this idea, if carried out, will get back to the media. The least I can see happening is that as a result we will get a better shake.

Mr. Robert Haldeman
August 14, 1968
Page 3

I have a great many more detailed ideas on this subject which I would like to relate to the proper people. I have discussed my thoughts with several very knowledgeable individuals and they all seem to wholeheartedly agree.

Please let me hear from someone.

By the way, I would like to volunteer my services in any aspect of the campaign in which I might be useful.

Sincerely,

Your suggestion is a good one. Thank you for taking the time to forward it.

We are presently working on a system of monitoring television and newspaper coverage should it become necessary for us to act as the campaign progresses. We hope that in this campaign we will receive the type of fair coverage you mention. However, should it be otherwise, we will be prepared.

Your letter also expressed your interest in working during the campaign. With this in mind I have forwarded your name to Mr. Al Hartunian, who will be coordinating our Citizens effort in California. He should be in contact with you soon.

Just a note to thank you for your invaluable efforts on behalf of Richard Nixon during the Convention. Without your support, hard work and exceptional leadership our job would not have been so easy. It was a very real pleasure for me to work with you.

A united, well-coordinated campaign was the deciding factor in such a great success -- as it will be once again in November.

Thanks for all you have done and will continue to do. I look forward to working with you again to promote our common objective of a Republican victory.

It is my opinion that we can carry Hawaii - with organization and hard work. LBJ did not endear himself or the administration by proposing a "Tourist Tax" that would be a "Kiss of Death" to the economy of the Islands.

There was a majority opinion of those tourists who talked with me that Nixon was the best qualified for President among candidates of both parties.

I am enclosing copies of letters sent to Washington, deploring conditions in "National Parks", etc.

Dear Mr. Bell:

The "American Tourists" who flock from all parts of our country to National Parks in the West, and those excellent college youth who work there, need a champion.

Our party of four just finished a trip that included Jackson Lodge and the Tetons, Yellowstone, Glacier Park, etc., and were shocked at our findings. I think that the BEST is none too good for our own people, as well as the employees, at these places.

The college youths, as employees, are paid under the minimum wage, over-worked, and poorly fed, and some laid off, even though there has been an 11 percent increase in tourists this year.

The high cost of the accomodations and poor food, especially in the "Old Faithful" area, is beyond comprehension! "Canyon Village" district seemed a lot better.

I think that NOW is the time to make a complete study of this situation and remedy it.

Dear Mr. Pollner:

The national office of the United States Treasury Agents Association wishes to invite Mr. Nixon to be the guest speaker at our semi-annual dinner, hosted by our New York Chapter in their city. This semi-formal affair is scheduled within the last three weeks of October, 1968.

Since we will have over 1500 persons in attendance, we are endeavoring to have all of the arrangements made by September 6, 1968. Among those present will be Federal department heads, bureau heads of Federal law enforcement agencies, heads of state law enforcement agencies, as well as local law enforcement officials.

We, as federal law enforcement officers, and as private citizens of this great nation, individually and collectively, are very interested in the position Mr. Nixon takes on crime, law and order, and law enforcement problems. These issues are our issues also. We are eagerly looking forward to Mr. Nixon's guidance on these matters, as well as rendering any assistance necessary to promote our common goals.

The United States Treasury Agents Association was begun about 10 years ago in Chicago by a group of Treasury Enforcement personnel who saw the advantages of such an association for men engaged in enforcement activities. Today, we have 26 chapters throughout the United States, united to promote professionalization through education; consistent maintenance of the highest standards so deserving of our office, and to further the preservation of, and adherence to, the Constitution of the United States.

The success of our association recently required amendments to our constitution, whereby our membership has now been expanded to include all law enforcement officers in the federal service. This expansion now gives us a potential membership of over 30,000 Federal Criminal Investigators.

Our legislative programs, among other matters, include better recognition of law enforcement problems; retirement benefits comparable to state and municipal standards. We are most interested in HR - 17682, which gives some improvement to general federal retirement plan, and increasing the law enforcement personnel retirement computation factor from 2 percent to 2½ percent, after 20 years of service. Unfortunately, Congress recessed before any action was taken on this bill.

We sincerely hope that Mr. Nixon's schedule is such that he will be able to afford us the honor of accepting our invitation to speak on our mutual issues, which are so critical to our country today.

Sincerely yours,

MILTON K. WU

September 23, 1968

Memo to: John Erlichmann
From: Bob Haldeman
Re: Tour operations September 11-21

I think we've covered most of the specifics as we have gone along on the tour, but I find in reviewing my notes that there are a couple of things that might be worth repeating in writing.

I've noticed that, in a number of our local stops, the advance man or someone has prepared a schedule and left it in the staff rooms that in many cases varies, either in minor forms or from time to time, on a major basis from the detailed schedule we have been given in advance. This was frequently a problem in '60 and we found the only way to resolve it was to avoid putting out any local schedule by the advance man or anyone else on the scene. If there is a necessity of changing the detailed schedule that the staff carries, this change should be put out by you or the Tour Office as a revision of our regular schedule. The problem is that when a schedule is put out locally and left on the table in each person's hotel room, it is not always noticed by all of the staff people, and I don't think you can count on their planning to follow it. You also have the danger of it being wrong, and having someone follow it, anyway.

I've noticed at several stops that there were huge piles of "hand made" signs, stacked at the entrance to the rally area, in full view of the press and this sort of defeats the atmosphere we're trying to create. This was especially noticeable at the Monument Circle in Indianapolis.

One thing I'm sure you've noticed and corrected is that at a number of the stops after we made the decision to put the TV stand to the side, instead of directly in front of the platform, they put it on the side which required the cameras to shoot directly into the sun, where it could just as well have been on the other side, so that they would have been shooting with the sun behind them. This is something the advance man should take into consideration in making the preliminary set-up.

Just as a reminder, it is important to try to work out some method of identification with badges for celebrities who will be working the platform prior to the RN appearance.

In order to avoid the problem that arose in Philadelphia regarding the H&H car, I would appreciate it if either Larry or I could be notified, as far in advance as possible, of any plan to change the

normal arrangement regarding that car, since we do make specific plans based on the assumption that the car will be there and in its normal position. I know there may be times when this has to be changed, but it would sure help to know about it ahead of time.

'RN has mentioned several times to me, as I'm sure he has to you, in recent days, how very pleased he is with the outstanding work done by our advance men. He was especially impressed by the Philadelphia-Pennsylvania-New Jersey motorcade, and has said several times that those responsible should receive strong commendation.

Sorry this is all I can think of to bother you with, but I'm sure I'll find something more as the weeks go on.

Dear Miss Woods,

I recall your thoughtful help to arrange for Mr. Nixon to campaign with me in 1966. I want to volunteer my services to Mr. Nixon in this crucial campaign. I am sure that you and the other members of the staff who have worked so long and loyally must be delighted at Mr. Nixon's nomination. I share this enthusiasm with you, not only because of his help to me in my unsuccessful campaign, but because I believe he can be the leader our nation and our party need.

I have extensive contacts with people in the eight counties of the 35th Congressional District (Montgomery, Otsego, Chenango, Cortland, Cayuga, Seneca and Yates Counties), as well as neighboring counties like Wayne, Monroe and Steuben here in Western New York. This is good Republican country, and Mr. Nixon has many friends in this area.

While I was unsuccessful in my campaign, I do not feel that my role would be a detriment. I am certain that I have the recommendation of each of the Republican County Chairmen in the above counties and that of all State and Local Republican Officers.

I am enclosing my biography and some other materials for your information. I want to emphasize that I am volunteering. I would be pleased to have any recommendation of a role that I could play in the campaign.

Please accept my appreciation for presenting my credentials and my offer of work appropriately.

Very truly yours,

Frederick D. Dugan

During your discussion with Mr. Nixon last night, he mentioned that he would be making a major statement on agriculture today in Des Moines, and that you would be provided with a copy. Attached you will find a copy of that statement.

I hope that it answers in more detail the questions you raised during the television show. Your participation in the program contributed in no small way to the success of the show. Thank you so much for your time and interest.

Dear Jack:

Rose Mary referred your offer of help to me a few days ago. Since that time I have been checking into some of the areas you mentioned in your correspondence with her. Your thoughts in connection with the speakers bureau seem to offer the widest opportunities at this stage of the campaign. With this in mind, I have forwarded your letter to Mrs. Vera Ash, of our Speakers Bureau at the Republican National Committee. She will be in contact with you shortly to discuss your availability and plans.

Let me thank you for your patience and for your offer of assistance. I can assure you they are appreciated.

Dear Rose Mary,

We enjoyed your letter of August 27th. Thanks for promptness, a rare commodity in this busy world.

I forgot to mention that my path crossed with that of Doris Jones, John Ehrlichman, Bob Newbrand, John Niedecker, and others whose names I do not recall.

Talked with Beebe Rebozo today via telephone. He said he has spent his first day at the bank in three weeks this day. Brother Rebozo said he forwarded my letter, "to the Boss", along with other mail, to New York City address. This evidently indicates that my letter, a copy of which you received, may be hanging somewhere in limbo in that "tons and tons of mail" apparatus. This is what I thought might occur. Your follow-up assistance will be appreciated.

In the meantime, until I hopefully receive an opportunity to help elect the "Old Man", I shall continue to remain on the Ft. Lauderdale beach in pursuit of sun, tan, and sand.

We keep the faith.

Love,
Jack

Dear Dick,

Dodee and I were delighted by your first ballot nomination and look forward to your election to the Presidency this Fall.

After three busy months as Assistant Executive Secretary, Arrangements Committee, and Chief Sergeant-at-Arms for the National Convention at Miami Beach, I am ready to press on in your behalf in any capacity my experience allows. There are a few areas in which I believe my assistance would be helpful to you.

First, in the security area, it is my observation at this point that you may be overpowered to the extent your campaign effort could be hampered. You need someone to relax the Secret Service.

Second, I believe I could help in the Press relations area. My wide personal acquaintance with members of the press, including locals who rarely make the Washington, D.C. scene, should be valuable in the production of local color stories helpful to you. The locals in cities, towns and counties visited by you as a Nominee are too often overlooked as to motorcade accommodation, accessibility to you, etc.

Third, in the speaker-bureau area, I believe I could do a creditable job. Besides a wide acquaintanceship with many athletes, actors and actresses, political personages, plus a broad recall of the physical accommodations for speaking appearances in most cities of any size in the United States, I have had political-problem contact with previous speaker bureau people,

Page 2
August 24, 1968

such as Congressman Bob Wilson, Cy Laughter, etc.

Fourth, I have a considerable 8 mm color movie library of your United States and Foreign Travels covering your eight years as Vice President. Someone, with political and technical knowledge, should look these over.

May I hear from you at an early convenience?

Sincerely,

Jack Sherwood
