MEMORANDUM FOR: BRUCE KEHRLI
FROM: AL HAIG *Al Haig*
SUBJECT: SALT Information

We have checked and found that no member of the NSC staff left the attached material on the American Airlines flight in question. It is possible that Paul Doty or Jack Ruina of the McCloy Committee might have done so since both flew to Washington from Boston on June 30 to attend briefings on SALT matters and both might have had such material in their possession. In any event, it is doubtful that any classified material was involved at all.
