- 1 - world leader
- 2 - dignity
- 3 - strong leader

add Wein.

diff approach to budget.

we're not new thg of spending politically

ie don't help professors etc

look for other areas like that - take lumps

for Dom Co. -

look for more things like automobiles

in environment - take some risks for jobs

all decisions in environment + consumer

shld lean toward jobs.

2.

re jobs -

~~Housing etc~~

won't be any tax legis. ^{in time} to do any good
look at all budget items for jobs
& put them in Calif.

Housing - use whatever Admin. discretion we can
to subsidize housing - This create jobs
get van Dusen to study this
work on all kinds of construction - now
& announce everyone from WH.

Accelerate rapid transit -

slow lane requires design

either we spend it this way -

or Congress will force us to spend it worse

must have tax reform that decreases prop. tax

- P. get something on prop. tax relief in old jobs spec

- E get a one page to P. re revokg cuts prop tax
get Buchanan to work on it.
maybe make this the major thrust in Rochester
