**\*\*During her tenure as archivist of the Richard Nixon Library and Birthplace, Susan Naulty removed correspondence between Richard Nixon and former Presidents Gerald Ford, Jimmy Carter, Ronald Reagan and George H.W. Bush, as well as Senator Robert Dole and the Rev. Billy Graham from the VIP files and Special People Files. This created artificial collections which Ms. Naulty began processing and served to researchers. Processing was completed on these collections between 2003-2005, and finding aids created for these collections. These are the only textual materials in the post Presidential collection that are currently available for research.**
