Budget Mtg.

Gifford - re pt. use of budget.

identify us w/ flow of Fed money to districts  
make use of the support we are already providing  
as a way to avoid add-ons

make pt that ~~Fed~~ Cong. mail is good source  
of what people in dist. are concerned about

→ (waste of time)

1045

Wainbeger - budget pers. - FY 72

likely large actions.

Ⓟ

all out fight against child welfare bill - Powell veto

Ⓟ

need some programs that show we favor free enterprise  
all our things go in favor of govt. doing it.

include a dramatic pkg of reprivatization  
in '73 - whether or not Cong. will pass

don't care what happens

just estab. awareness of our philosophy  
to get Govt. down.

Ⓟ

no mileage polit. for conserv. admin. in

pushing how much we're spending

came off. will always spend more

2.

The only people that can make votes out of both wings  
are the irresponsible.  
We may be coming to a danger pt -  
Go too far in terms of social consensus etc  
& then lose both sides  
Can't gain lib. but cool the Conservs.

So we need more symbolism - i.e. reprivatisation  
need some reforms in this direction

(Comm) Keep in mind I can make issues  
i.e. fiscal responsibility  
can take some hard line symbolic positions  
i.e. we made the issue of support police vs. radicals

(Comm) should take on environment - it's not sacred cow  
our whole line is responsibility - hard to sell  
ultimately it is freedom (from big govt)

1200 to g. of guidance needed.

re 71 -

outlays have been controlled - Pelt effort  
rev. shortfall is the prob.

3.

'72 -

① don't talk about it now -  
do nothing til first of the year  
then move to resp. budget for '73 +  
announce '72 prov. at that time

'73 -

make it responsible - target full empl. bal  
& maybe a real balance  
(incl. tax increase)

come into Jan '72 - best way to present it.  
give Cong bad news re '72  
& target for '73 - actual balance  
declare end of downturn - etc.

best way to make fisc. resp. argument  
is to submit concurrent balanced budget for '73  
so don't close the option of tax reform (w/ increase)

give tax relief to the people who produce (for a change)

accomplish three things: so all say something in it for me  
(for our constituency)

- 1) reduce property tax
- 2) limit total everyone pays
- 3)

4.

Comm "restrict humanitarian concern to public utterances  
not public dollars."

re '72

need fiscal stimulus of economy  
look at areas that rain to new plateau for '73  
cutting '72 back won't help politically

in '73

we have to fight the budget & the Congress  
goal: tight budget - take hard line  
if in mid '72 econ. isn't moving  
the budget won't be able to help it.

basis for campaign

can't outspend or out-promise

so have to go for

free rent

stop inflation

lower unempl

free enterprise

have to put all these in '73 budget

do nothing on '72 cuts that will hurt on employment.

5.

2 set up special b'g - Connally  
at 9:30 Tues - re Econ.

✓ Burns + Connally on Mon.

✓ Get The Burns paper to P tonight.

Col's plan to get around what Conn says Tues  
re: recs, signing + basic plan

✓ re Burns:

P. guess as of now - ex for long steel strike  
will have <sup>very</sup> buoyant fall - not in full Aug.  
by end of yr consensus precast will be low  
cause retail sales strength not felt yet.  
doesn't agree w/ line re lack of confidence

re steel strike

P. involved

g. of call them into WH - early July  
ck 5 re specific dates - re lat'g.
