## "C Compilation Reels"

The balance of the 204 rolls of Super 8 film were short work prints of 50' in length made from camera original rolls. A number of these rolls were identified by the processing archivist as being personal and private in nature and were not reproduced. These compilations were created by combining several short camera rolls that were apparently related by content, date or "cameraman". Other than materials withdrawn per our regulations (see above), no editing has been done to these rolls.
