SCOPE AND CONTENT NOTE

The Richard Nixon Presidential Library and Museum has compiled the following list of textual materials, photographs, and audiovisual recordings relating to American Indians.

On July 8, 1970, citing “centuries of injustice,” the Nixon administration introduced a landmark plan to reevaluate the Federal policy towards American Indians. In an effort to reverse policies such as forced termination and assimilation (which ironically had been established during his Vice Presidential years), President Richard Nixon moved in favor of a new national policy of Indian self-determination. In this special message to Congress, President Nixon presented his plan to “to strengthen the Indian's sense of autonomy without threatening his sense of community.” His recommendations to Congress included: 1) Rejecting Termination; 2) The Right [of the Indians] to Control and Operate Federal Programs; 3) Restoring the Sacred Lands Near Blue Lake; 4) Improving Indian Education Standards; 5) Economic Development Legislation; 6) More Money for Indian Health; 7) Helping Urban Indians; 8) Establishing an Indian Trust Counsel Authority; and 9) Creating the position of Assistant Secretary for Indian and Territorial Affairs. Eight months earlier, American Indian activists made headlines when they occupied the abandoned Federal penitentiary on Alcatraz Island in the San Francisco Bay. This act of protest, which lasted well into 1971, helped to usher in the Indian rights movement and give its leaders a platform on which to air centuries-old grievances. The Nixon administration’s progressive stance on Indian affairs led to great strides in Federal policy towards tribal nations.

The selected textual documents mainly detail the Nixon administration’s influence towards and policy shift in American Indian affairs. The collections of Bradley H. Patterson and Leonard Garment make up the bulk of the materials available. However, American Indians are prominent in several of the Nixon Presidential Materials collections.

This subject guide seeks to list resources that show:

- The Nixon administration’s influence over Indian Affairs and the Federal policy towards American Indians.
- American Indian activism and the Federal response.
- The American Indians’ evolving political relationship to the United States.
- Significant achievements of the Nixon administration in Indian affairs and Federal Indian policy.

This guide is organized by collections in the Nixon Presidential Materials:

- Textual Materials
 - o Organized by the following topics
 - Civil Rights
 - Economic Development
 - Education
 - Events
 - General
 - Health Programs
 - Law
 - Legislation
 - Organizations
 - Programs
 - Self-Determination
 - Tribal Lands
 - Tribal Nations
 - Urban Indians
- Audiovisual Materials
 - o Organized chronologically by date
- Audio Collections
 - o Organized by Conversation Date
