MEMORANDUM FOR:

CHARLES W. COLSON

FROM:

ANDRE' E. LeTENDRE *AL*

SUBJECT:

Placement and my future function re:
Key Man and Related Programs

I have had conversations with Jeb Magruder, Fred Malek, and Charles Shearer of the Committee for the Re-Election of the President. The results of the conversations are, to quote a New England Political Hack, "Pig Shit!"

I, obviously, do not understand "Peter's Principals" and they, obviously, just do not understand.

It is critical, in my opinion, that the mode of operandi for our programs be set as soon as possible or we should abort our present course and "do something" with our existing vehicles and contacts.

If our resources are not valuable to those directly involved in the overall 1972 objectives, let's utilize our resources overtly at the White House for other good things. Important local, Congressional, and statewide races throughout the country could use the assistance, too.

It is obvious to me that the principals at the Committee (excluding the Attorney General, since the matter has not been taken to him as far as I know) are not anxious to have the program and/or me move into the Committee structure for all the "Sideshow" reasons only known to them and their super and defensive egos.

Thus, it is imperative a channel of utilization for our current and projected resources be opened at the White House or someplace else via the White House ASAP.

Presently I feel I've become America's Joan-of-Arc.

I'd greatly appreciate an opportunity to discuss this with you.

Thanks, Chuck.
