- Mind codes currently catalogue into Read Data. Need package of new materials then put into their system

Not limited to orig. indexers assessment
- Other system based on words - all words
- Article need broken by:
  - Title
  - Author
  - Pub date - and searchable
  - Media Type - new, TV, etc.
  - Page number (long record)
  - Text
  - Code
  - Opinion

Comm. Ed's abstracts
To get done into system:
  - Art typed on MIST
  - File storage - disk + data cell storage

File Security - coded w/level access

Tom Evans - 1:40
All material searchable, to L2 with code level based on the indexer's assessment. 
- can't be updated
Read data - auto searchable, can be put up to date changed

→ all 3 series and they are sequential.
