COMMITTEE FOR THE RE-ELECTION OF THE PRESIDENT

January 31, 1972

1701 PENNSYLVANIA AVENUE, N.W. WASHINGTON D. C. 20006 (2021-333-0920

MEMORANDUM FOR THE ATTORNEY GENERAL

THROUGH:

JEB S. MAGRUDER

SUBJECT:

Proposed Appearance in New Hampshire by Twenty Spokesmen on March 3, 1972

It has been recommended that approximately twenty spokesmen, celebrities and athletes be scheduled to appear in New Hampshire in the afternoon and evening of March 3, 1972.

The rationale for this is (a) it would reflect broad-based support of the President, (b) it would be a grand finale to a campaign in which the candidate did not appear, and (c) it would sustain the enthusiasm generated by the President's trip to China.

If the event is approved, it would be directed by the Spokesmen Resources Division. I have requested J. Curtis Herge to undertake the preliminary work in this connection. Curt has reported the following:

1. Principal Participants. We have contacted the schedulers of the following individuals to advise them of the possibility of the event and to ask that the date be reserved:

Vice President Sen. Scott
Sec. Romney Mr. Ruckelshaus
Sec. Morton Mr. Peterson
Sec. Butz Mr. Klein
Sec. Richardson Mr. Blatchford
Sec. Hodgson Mr. Kleindienst
Sen. Brock Senator Cook

Memorandum for the Attorney General January 31, 1972 Page Two

We have learned that the following individuals have standing commitments on March 3, 1972:

Sec. Volpe - Republican National Committee Leadership Conference in Washington, D.C.

Sec. Dole - Republican National Committee Leadership Conference in Washington, D.C.

Sen. Goldwater - Republican Fund-Raising Event,
Birmingham

Mr. Finch - West Adams Community Hospital Dedication, Los Angeles.

It would be possible to secure Sec. Volpe and/or Sen. Dole if it were deemed desirable.

We are now getting in touch with the schedulers of the following individuals:

Gov. Holton Sen. Taft
Gov. Milliken Cong. Kemp
Cong. Ford Cong. Conable

We have advised Joe Horacek of the event. He will provide us with the names of five celebrities who would be available for consideration.

We propose to get in touch with Frank Gifford to obtain the names of five athletes who would be available for consideration.

We understand that a decision will be made in due course about the possibility of scheduling the Vice President, Governor Rockefeller and Governor Reagan in New Hampshire.

Because of the non-partisan role they must play, we have not considered Sec. Connally, Sec. Rogers, Sec. Laird or Mr. Rumsfeld.

Memorandum for the Attorney General January 31, 1972 Page Three

One or more women might be selected from among Bertha Adkins, Patricia Hitt, Charlotte Reid, Virginia Knauer, Jayne Spain, Catherine Bedell and the list of celebrities.

Lionel Hampton and his orchestra are presently scheduled to appear at the evening rally.

- Program. It is the present thought that the aircraft arrive in Manchester in the early afternoon to a large, colorful, noisy reception with bands and "Nixonettes". The group would then separate to visit selected cities and towns in the southern half of the State. They would take part in pre-programmed events, such as shopping center rallies or coffees, followed by walking tours. Among other things, they would build interest in the evening rally. The rally is to be held in the Manchester armory (capacity: 3,000) in the evening. Lionel Hampton and his orchestra are scheduled to play at the rally. The number and identity of the speakers must be determined. We are now attempting to secure a celebrity as the master of ceremonies and a well-known singer or singing group. The aircraft would depart for Washington following the rally. (One question which must be resolved is that of dinner. One option would be to have everyone return to his room in Manchester for a private dinner and a rest.)
- 3. Name. Consideration is now being given to a name for the event. Suggestions include: (a) Reelect the President Victory Special, (b) Re-elect the President Victory Tour and Rally, (c) The President's Day, and (d) The President's Victory Tour.
- 4. News Releases. The proposal is now confidential. It has been suggested that, to avoid the implication that this will be a last minute blitz to avoid a poor showing at the polls, the event should be made public at the earliest opportunity.

Memorandum for the Attorney General January 31, 1972 Page Four

- 5. Event Timing. To maximize the crowd at the airport reception, it might be advisable to schedule the arrival time to coincide with the lunch hour.
- 6. <u>Transportation</u>. We have requested American, Eastern and Allegheny airlines to submit bids to us for a charter aircraft.

If twenty spokesmen are selected, it can be expected that they will require an aggregate personal staff of twenty. If the Vice President goes, John Damgard reports that that will add eight more people. The press corps might number 10-15 and an equal number should go from 1701 to provide on-site support. The highest possible number of people involved might be close to 80, not including advancemen. As a consequence, we will require one or two aircraft. (It might be wiser to divide this group between two aircraft for safety reasons.)

John Sias has agreed to secure the necessary cars in New Hampshire.

- 7. <u>Communications</u>. We are presently exploring the possibility of securing several DCN's for use on March 3rd. (Walkie-talkies.)
- 8. Accommodations. We have requested John Sias to reserve an adequate number of hotel rooms for use as rest stops and a possible overnight if the weather prevents a departure that night.
- 9. <u>Support</u>. The following people have been advised of the proposed event:
 - a) John Sias Our scheduling contact in New Hampshire. We suggested to John that he designate someone to work full time with him on the logistical problems.

Memorandum for the Attorney General January 31, 1972 Page Five

- b) Van Shumway and Tom Girard Media arrangements.
- c) <u>Dick Heward</u> We suggested inclusion of the event in the news planning calendar.
- d) Dave Parker, Pat O'Donnell, John Damgard and Ernie Minor Schedule coordination.
- e) Nancy Steorts Organization of "Nixonettes".
- f) Glenn Sedam Aircraft arrangements.
- g) Joe Horacek Celebrities.

With your approval, we will proceed to organize this event.

COMMITTEE FOR THE RE-ELECTION OF THE PRESIDENT

January 31, 1972

1701 PENNSYLVANIA AVENUE N.W. WASHINGTON D.C. 20006 (202) 333 0920

MEMORANDUM FOR THE ATTORNEY GENERAL

SUBJECT: State Speakers Bureau

It has been recommended that Speakers Bureaus be organized within the framework of the state campaign committees in the key states.

We suggest that our Spokesmen Resources Division assist the respective state chairmen with the organization of the bureaus. The objectives would be to facilitate the scheduling of local spokesmen within their home states and to be assured that the spokesmen reflect the proper positions on current issues. The states would include California, Illinois, Indiana, Michigan, Minnesota, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Texas and Virginia.

To implement this proposal, we suggest the following:

- 1. Within the next few weeks, we propose to submit a program outline to the state chairmen.
- 2. In May, four regional meetings will be held to brief the state chairmen and state speakers on the effective organization and operation of the state bureaus. They will be advised that we will provide issue books and periodic position papers.
- 3. The regional briefing sessions will include (a) California and Texas; (b) Illinois, Indiana, Michigan, Minnesota and Ohio; (c) New Jersey, New York and Pennsylvania; and (d) North Carolina and Virginia.

If you	approve,	we	will	implement	this	program.

MEMORANDUM FOR THE ATTORNEY GENERAL

SUBJECT: New Hampshire Direct Mail

Attached is the recommended text for the letter which will be sent to undecided voters in New Hampshire as an adjunct to the telephone campaign.

As described in the telephone canvass plan, each Republican voter in the state will be called and asked if the President can count on his support. If the voter states that he is undecided, the telephoner will ask if there is a particular issue which is most important to the voter in arriving at a decision. Following that conversation, the attached letter will be sent, along with a onesheet issue summary on the appropriate subject. If the voter declines to specify an issue, a generalized one-page statement will

The text in the attached letter has been reviewed by Dick Moore and has his concurrence.

Recommendation

That you approve the text of the attached letter and authorize its use in New Hampshire for the purpose specified above.

SUGGESTED DRAFT

Mrs. Jane Flint 1111 First Street Concord, New Hampshire

Dear Mrs. Flint:

When one of our volunteers spoke with you over the telephone recently, you indicated particular interest in the issue(\underline{s}) of (<u>list issues mentioned</u>). The President's overall record, as well as his accomplishments in your area of interest, warrant our continued support for his re-election.

I hope that after reading the enclosed issue paper(\underline{s}) you will join us in supporting President Nixon at the polls on March 7th.

Sincerely,

Lane Dwinell

MEMORANDUM FOR THE ATTORNEY GENERAL

SUBJECT: First Wave Polling Results

We will begin receiving the remainder of the first wave polling reports from the polling companies this week and be receiving all other reports during the next three weeks. This will involve a large volume of data and I would like to handle the reporting of this data to you in the following manner.

- 1. I have asked the companies for preliminary tabulations of the ballot data and will have a state-by-state (with the possible exception of Texas, Tennessee, and Virginia) summary of the seven trial heats we measured by Tuesday, February 8th.
- 2. As I get the analyses and data from the polling companies, I will prepare a summary memo with my conclusions and what I think are the implications on our campaign for that state. I will send you (and Haldeman) these memos and a copy of the polling companies' analysis according to the following schedule below. I will not include the data but will have it here to answer any questions.

By February 7th

Iowa

North Carolina New Jersey Pennsylvania

Arkansas (added onto Rockefeller poll)

By February 14th

Ohio Indiana Missouri

CONFIDENTIAL

First Wave Polling Results January 31, 1972 Page 2

By February 21st

Virginia New York California Oregon

By February 28th

Maryland Texas Tennessee

National oversample

It is possible that we will receive the data from the companies a little earlier than they are committed for and, if so, we will be able to accelerate our delivery schedule to you by a few days. I will also keep you advised of any delay in their delivery schedule to us.

3. Once we have all the data we intend to do more comparative analyses of the various states, some aggregate analyses of types of voters, and more statistical analysis. This will allow us to develop additional memos relating to a reevaluation of target states, specific state campaigns, and several specific topics such as the President's image, the various issues, the opponents and their images, and the relationship to these and voting behavior. The companies are submitting decks of IBM cards with their reports and I will do this analysis at my office in Detroit where I have a computer available with adequate programming capability and security proceedure.

The final item which needs your consideration is the dissemination of the information. As expected, I have had numerous requests for data intermittenly and up to now have only reacted to other peoples' programs or ideas based on the data. From my experience during the past few weeks, three people seem to have some definite needs for information -- Bob Marik, for the preparation of campaign plans and direct mail; Pete Dailey for the preparation of advertising; and Harry Dent. I attend meetings frequently where the data we have should influence decisions that are made and I think it is important that I be able to discuss our findings with them or that we set up a proceedure to get the data to them.

Subject: New Hampshire Polls

I heard today that the Becker operation is currently taking a poll in New Hampshire. The results will be published Sunday, January 23 in the <u>Boston Globe</u>. Also I have been told by a reporter that the "infamous" New Hampshire poll showing McCloskey with 22% of the vote was done by the Cambridge Opinion Studies organization. I understand that they have done work for us and for Lindsay. This reporter is currently trying to determine who commissioned this one. I have repeated to him our position that it was not ordered by us.

August 7, 1971

Mr. Murray M. Chotiner Special Counsel to the President THE WHITE HOUSE washington, D. C.

Dear Mr. Chotiner:

I am sure at this time that you are well aware of the William Loeb, Manchester Union-Leader editorial of Friday, August 6th where Mr. Loeb has declined to go along with President Minon based upon his decision to visit mainland China. A copy of the story is enclosed just in case you hadn't seen it.

In view of this I wonder if we might not do a quick telephone survey to measure opinion among Granite Staters on the issue, Mr. Loeb and the Union-Leader. I enclose a single page suggested question-naire and we could do interviews in different sections of the State.

I recommend that we complete 500 interviews covering the communities of Manchester, Nashua, Concord, Keene, Hanover and Portsmouth basing our sample in each community on population size. The complete cost for this study would be \$4,000.00 and we would provide the actual comments of respondents interviewed. The study would be comparable to the one we did state-wide in Massachusetts for Margaret Heckler last year.

We could start such a study the first of the week and complete it quite quickly if we got the go-ahead from you or others in authority. By questionnaire is just a suggested one and you might want to make some changes, deletions, etc. I might add that four years ago when I worked with a Detroit based group we asked these questions about ir. Toeb, who you know is a factor here in the Granite State. Whomeas I only assisted with the field work I just didn't see the responses to these questions.

I should be very happy to hear from you when you have a chance to read this letter and we could proceed investigately. I am contain that we could come up with some current thinking of New Marpshire residents. I will be ever so appreciative if you will been my services in mind.

New Hampshire Poll 5.2221 Nixon Holds Large Lead Over Potential GOP Rivals

Copyright, 1971 Globe Newspaper Co.

President Nixon holds a huge lead over five potential challengers for the Republican presidential nomination among New Hampshire Republicans,

The New Hampshire Presidential Poll shows the President leading California Gov. Ronald Reagan, the state Republicans' second choice, by a margin of 58 percent to 10. Mr. Nixon tops the combined showing of five others, 58 to 33.

The poll, conducted exclusively for The Globe by Becker Research Corp., sampled 965 New Hampshire residents who intend to vote in the March 1972 Republican primary there, tentatively slatIn The Sunday Globe another N.H. foll matches Precident Nixon against Sen. Muskie, the Democratic frontrunner at this point.

ed to be the first primary in the nation.

The results of a six-man contest:

President Nixon
Gov. Ronald Reagan
Vice President Solro Agnew
Mayor John Lind-sy (NY)
Scn. Charles Percy (R-Ill.)
US Rep. Paul McCloskey (R-Calif.)
Undecided

N.H. POLL, Page 4

Nixon leads potential GOP rivals in NE

★ N.H. POLL Continued from Page 1

So far, only McCloskey, a critic of Mr. Nixon's war policy, has promised to enter the New Hampshire primary unless the Administration speeds up troop withdrawals. The other candidates in the trial heat have publicly deferred to the incumbent.

Where last Sunday's poll showed nearly a third of those planning to vote in the Democratic primary are Independents or currently unregistered, not nearly as many of those two categories say they plan to vote in the GOP primary.

Mr. Nixon's strong showing among New Hampshire Republicans, when matched against candidates of his own party, is shown in these hypothetical two-way matchurs; Nixon over Reagan by 75 to 17; over Agnew 77 to 14; over Lindsay 78 to 14; and over McCloskey 83 to 6.

McCloskey has had little visibility in the state, and his attempt to marshall support against the war has made httle impact to date among New Hampshire Republicans.

has made little impact to date among New Hampshire Republicans.

Mr. Nixon runs best among registered Republicans, as opposed to Independents and unregistered voters.

Even among Republicans

who are liberal or young, the President is well ahead, while Agnew's best showing comes with conservatives, Independents and voters over age 45.

Perhaps most revealing in the poll taken 10 months away from the primary, the President's Vietnam policy and the economy do not appear to be great handicaps to him in the GOP primary.

Even among those who favor complete withdrawal from Vietnam by the end of this year — a step he opposes — Mr. Nixon runs well ahead of War critics Lindsay and McCloskey.

Reagan, the President's closest opponent in New

Hampshire at this point, has disclaimed presidential ambitions while Mr. Nixon is in the running. Reagan is making a speech June 15 in Manchester.

McCloskey, who recently returned from a Victnam tour in which he was critical of the Administration, is attempting to mount the type of challenge that former Sen, Eugene McCarthy posed to President Johnson in the 1968 Democratic primary in New Hampshire.

Mr. Nixon runs well ahead of Lindsay and McCloskey even among Republican veters who say they have suffered as a result of the economic downturn.

New Hampshire Poll 5.23.11 Muskie Given 8% Lead Over Nixon

Copyright 1971 by The Globe Newspaper C

The first matchup of Sen. Edmund S. Muskie against President Nixon among potential New Hampshire primary voters has the Maine Democrat leading 49 percent to 41.

The President leads by substantial margins in trial heats against five other Democrats, however.

While Muskie, from neighboring Maine, could be expected to fare well in New Hampshire, his early showing against Mr. Nixon is significant because the President and Vice President Spiro T. Agnew captured the Granite State in the 1968 election, 52 percent to 44 percent for Hubert Humphrey and Muskie.

The New Hampshire

The New Hampshire Poll, conducted exclusively for The Globe by Becker Research Corp., sampled 1986 New Hampshire residents who intend to vote in that state's March, 1972 primary, either in the Republican or Democratic contests.

This sample differs from a random sample in that all respondents intend to vote in one or the other primary.

The poll conducted by phone between April 12 and May 8, shows Muskie over Mr. Nixon 49 percent to 41 percent, with 5 percent for Alabama Gov. George Wallace, the independent candidate in 1968, and 5 percent undecided.

Muskie ran stronger against Mr. Nixon than any other Democrat. Mr. Nixon outpolled Sen. Edward M. Kennedy (D-Mass.) 53 to 37 percent with 4 percent for Wallace and 6 percent undecided.

Last Sunday's New Hampshire Poll showed N.H. POLL, Page 31

Muckie leads Nimon by 8 perce

* N.H. POLL Continued from Page 1

Muskie the early favorite of New Hampshire Democrais over Kennedy and six other Democratic possibilities.

New Hampshire's primary next year is sched-uled to be the first in the nation, although a few other states may move their primaries up carlier.

In this week's poll. Mr. Nixon was matched against Muskie, Humplirey, Ken-nedy, Sen. George McGovnear, Sen. George Medovern of South Daltota, Sen. Henry M. Jackson of Washington, and Mayor John V. Lindsay of New York, a Republican who has been mentioned as a possible Democratic opponent.

Muskie also was matched against Lindsay, on the premise that Lindsay might be a Republican candidate for President.

Wallace was included in

all the possible contests.

In the matchups the major party candidates polled as follows:

GRIV GRIV LIMBY Humphrey and Kennedy

both ran appreciably be-hind Muskie in head-tohead contests with Mr. Nixon.

The survey clearly shows Muskie doing significantly better against Mr. Kixon in New Hampshire than the others.

Perhaps even more important than the percent-age results this far away from the next election are voter attitudes in generally conservative New Hampshire. The primary voters sam-

The primary voters sampled apparently do not find Mr. Nixon unattractive—they approve of his performance in office by a margin of 55 to 36 percent.

On the economy, 29 percent said that, considering their income and the cost

of living, they are worse off today than a year ago; 20 percent say they're bet-ter off and 50 percent say there's been little change.

The voters split sharply on Vietnam; 47 percent favor a phased with drawal which would leave 50,000 the end of 1972, while 42 percent would prefer a complete pullout by the end of this year.

In what is regarded as a "nawkish" state, then, the President's refusal to pull out all treeps this year is opposed by 4 voters out of 10.

Perhaps the first clear reading of the economic issue for the President is issue for the President is given this way: those who feel they are worse off prefer Muskie 2 to 1, while those who feel their standard of living has improved or stayed the same split evenly between Muskie and Mr. Nivon. and Mr. Nixon.

Muskie outdistances Kennedy and Hun among those who they're worse off. Overall, Muskie and Humphrey who

pulls away from Mr. Nixon among liberal or younger voters, and groups which tend to favor early pullouts

from Vietnam.

Mr. Nixon runs very strongly against Sen, Jackson, the only Democratic possibility who has a "hawkish" position on the

war.
Mr. Nixon's only good showing against Sen. Mushle comes with voters over age 65, who favor the President 54 to 36 percent.

Among the 18 to 20 year olds who'll be voting for the first time next year, Muskie has a 67-25 edge, and that diminishes only slightly among voters up to age 20. Even among voters between the ages of 30 to 44, Muskie leads 50-39. Muskie runs equally well

with women and men. In-terestingly, Wallace re-ceives twice as much support from men as from women.

The sample included 574

Democrats, 838 Republi-cans, 283 Independents, and 254 persons not yet registered but who nevertheless intend to vote in

Boston Sunday Globe

May 23, 1971

nt in N.H. Po

one or the other prunaries next spring.

Where 57 percent of the 18- to 20-year-olds favor an American withdrawal an American withdrawal from Vietnam by the end of this year, that prepertion declines steadily with age. The voters over 65 years prefer, by 49 to 32 percent, leaving 50,000 treops there by the end of part year. by the end of next year.

Both Muskie and Mr. Nixon easily carry their own parties, but Muskie spurts ahead with the indeendents and younger vot-

ers. New Hampshire is a Republican state, in terms of

registration, Muskie and does better among Republicans than Mr. Nixon does with Democrats.

So the decisive factor ap-ears to be Muskie's appeal to independents and those not yet registered.

None of the other Demo-

crats is able to carry the independent vote against Mr. Nixon. New York Mayor Lind-

say — the Republican who has denied speculation he'll run as a Democrat run as a Democrat — comes off better as a Democrat than as a Republican. Muskie does better against a common opponent, Lindsay, than does Mr. Nixon.

New Fampshire Poll 5.22%
Nixon Holds Large Lead
Over Potential GOP Rive

Copyright, 1971 Globe Newspaper Co.

President Nixon holds a huge lead over five potential challengers for the Republican presidential nomination among New Hampshire Republicans.

The New Hampshire Presidential Poll shows the President leading California Gov. Ronald Reagan, the state Republicans' second choice, by a margin of 58 percent to 10, Mr. Nixon tops the combined showing of five others, 58 to 33.

The poll, conducted exclusively for The Globe by Becker Research Corp., sampled 965 New Hampshire residents who intend to vote in the March 1972 Undecided Republican primary there, tentatively slat-

In The Sunday Globe another N.H. foll matches President Nixon against Sen. Muskie, the Democratic frontrunner at this point.

ed to be the first primary in the nation.

The results of a six-man contest:

President Nixon	58%
Gov. Ronald Reagan	10%
Vice President Spiro Agnew	900
Mayor John Lindsay (NY)	600
Scn. Charles Percy (R-Ill.)	600
US Rep. Paul McCloskey (R-Calif.)	
Undecided	9%

Nixon leads potential GOP rivals in NE

★ N.H. POLL Continued from Page 1

So far, only McCloskey, a critic of Mr. Nixon's war policy, has promised to enter the New Hampshire primary unless the Administration speeds up troop withdrawals. The other candidates in the trial heat have publicly deferred to the incumbent.

Where last Sunday's poll showed nearly a third of those planning to vote in the Democratic primary are Independents or currently unregistered, not nearly as many of those two categories say they plan to vote in the GOP primary.

Mr. Nixon's strong showing among New Hampshire Republicans, when matched against candidates of his own party, is shown in these hypothetical two-way matchups: Nixon over Reagan by 75 to 17; over Agnew 77 to 14; over Lindsay 78 to 14; and over McCloskey 83 to 6.

McCloskey has had little visibility in the state, and his attempt to marshall support against the war has made little impact to date among New Hampshire Republicans.

Mr. Nixon runs best among registered Republicans, as opposed to Independents and unregistered voters.

Even among Republicans

who are liberal or young, the President is well ahead, while Agnew's best showing comes with conservatives, Independents and voters over age 45.

Perhaps most revealing in the poll taken 10 months away from the primary, the President's Victnam policy and the economy do not appear to be great handicaps to him in the GOP primary.

Even among those who favor complete withdrawal from Vietnam by the end of this year — a step he opposes — Mr. Nixon runs well ahead of War critics Lindsay and McCloskey.

Reagan, the President's clesest opponent in New

Hampshire at this point, has disclaimed presidential ambitions while Mr. Nixon is in the running. Reagon is making a speech June 15 in Manchester.

McCloskey, who recently returned from a Victnam tour in which he was critical of the Administration, is attempting to mount the type of challenge that former Sen, Eugene McCarthy posed to President Johnson in the 1968 Democratic primary in New Hampshire.

Mr. Nixon runs well ahead of Lindsay and McCloskey even among Republican voters who say they have suffered as a result of the economic downturn.

President Nixon matched against potential Republican rivals

QUESTIONS VOTERS WERE ASKED

"I'm going to read you the names of some men who may be running in the New Hampshire Republican presidential primary next March. Please listen carefully and tell me which one you would like to see win if that primary were being held today. If the New Hampshire Republican primary election for President were being held today and the candidates were Spiro Agnew, John Lindsay, Paul McCloskey, Richard Nixon, Charles Percy and Ronald Reagan, which one would you like to see win?

"Suppose the candidates were Ronald Reagan and Richard Nixon. Then which one would you like to see win?" "Suppose the candidates were Spiro Agnew and Richard Nixon. Then which one would you like to see win?" "Suppose the candidates were John Lindsay and Richard Nixon. Then which one would you like to see win?"

"Suppose the candidates were Paul McCloskey and Richard Nixon. Then which one would you like to see win?"

New Hampshire Poll 5.23.11 Muskie Given 3% Lead Over Nixon

Copyright 1971 by The Globe Newspaper Co.

The first matchup of Sen. Edmund S. Muskie against President Nixon among potential New Hampshire primary voters has the Maine Democrat leading 49 percent to 41.

The President leads by substantial margins in trial heats against five other Democrats, however.

While Muskie, from neighboring Maine, could be expected to fare well in New Hampshire, his early showing against Mr. Nixon is significant because the President and Vice President Spiro T. Agnew captured the Granite State in the 1968 election, 52 percent to 44 percent for Hubert Humphrey and Muskie.

The New Hampshire Poll, conducted exclusively for The Globe by Becker Research Corp., sampled 1986 New Hampshire residents who intend to vote in that state's March, 1972 primary, either in the Republican or Democratic contests.

This sample differs from a random sample in that all respondents intend to vote in one or the other primary.

The poll, conducted by phone between April 12 and May 8, shows Muskie over Mr. Nixon 49 percent to 41 percent, with 5 percent for Alabama Gov. George Wallace, the independent candidate in 1968, and 5 percent undecided.

Muskie ran stronger against Mr. Nixon than any other Democrat. Mr. Nixon outpolled Sen. Edward M. Kennedy (D-Mass.) 53 to 37 percent with 4 percent for Wallace and 6 percent undecided.

Last Sunday's New Hampshire Poll showed N.H. POLL, Page 31

Musicie leads Nazon by 8 perce

★ N.H. POLL Continued from Page 1

Muskie the early favorite of New Hampshire Democrats over Kennedy and six other Democratic possibilities.

New Hampshire's primary next year is scheduled to be the first in the nation, although a few other states may move their primaries up earlier.

In this week's poll, Mr. Nixon was matched against Muskie, Humphrey, Kennedy, Sen. George McGovern of South Dakota, Sen. Henry M. Jackson of Washington, and Mayor John V. Lindsay of New York, a Republican who has been mentioned as a possible Democratic opponent.

Muskie also was matched against Lindsay, on the premise that Lindsay might be a Republican candidate for President.

Wallace was included in all the possible contests.

In the matchups the major party candidates polled as follows:

Humphrey and Kennedy both ran appreciably behind Muskie in head-tohead contests with Mr. Nixon.

The survey clearly shows Muskie doing significantly better against Mr. Nixon in New Hampshire than the others.

Perhaps even more important than the percentage results this far away from the next election are voter attitudes in generally conservative New Hampshire.

The primary voters sampled apparently do not find Mr. Nixon unattractive — they approve of his performance in office by a margin of 55 to 36 percent.

On the economy, 29 percent said that, considering their income and the cost of living, they are worse off today than a year ago; 20 percent say they're better off and 50 percent say there's been little change.

The voters split sharply on Vietnam; 47 percent favor a phased withdrawal which would leave 50,090 American soldiers there by the end of 1972, while 42 percent would prefer a complete pullout by the end of this year.

In what is regarded as a "hawkish" state, then, the President's refusal to pull out all troops this year is opposed by 4 voters out of

Perhaps the first clear reading of the economic issue for the President is given this way: those who feel they are worse off prefer Muskie 2 to 1, while those who feel their standard of living has improved or stayed the same split evenly between Muskie and Mr. Nixon.

Muskle outdistances Kennedy and Humphrey among those who feel they're worse off.

Overall, Muskie pulls away from Mr. Nixon among liberal or younger voters, and groups which tend to favor early pullouts from Vietnam.

Mr. Nixon runs very strongly against Sen, Jackson, the only Democratic possibility who has a "hawkish" position on the war.

Mr. Nixon's only good showing against Sen. Muskie comes with voters over age 65, who favor the President 54 to 36 percent. Among the 18 to 20 year clds who'll be voting for the first time next year, Muskie has a 67-25 edge, and that diminishes only slightly among voters up to age 30. Even among voters between the ages of 30 to 44, Muskie leads 50-39.

Muskie runs equally well with women and men. Interestingly, Wallace receives twice as much support from men as from women.

The sample included 574 Democrats, 238 Republicans, 288 Independents, and 254 persons not yet registered but who nevertheless intend to vote in

nt in N.H. Poll

one or the other primaries next spring.

Where 57 percent of the 18- to 20-year-olds favor an American withdrawal from Vietnam by the end of this year, that proportion declines steadily with age. The voters over 65 years prefer, by 49 to 32 percent, leaving 50,000 treops there by the end of next year.

Both Muskie and Mr. Nixon easily carry their own parties, but Muskie spurts ahead with the independents and younger voters.

New Hampshire is a Republican state, in terms of

registration, and Muskie does better among Republicans than Mr. Nixon does with Democrats.

So the decisive factor appears to be Muskie's appear to independents and those not yet registered.

None of the other Democrats is able to carry the independent vote against Mr. Nixon.

New York Mayor Lindsay — the Republican who has denied speculation he'll run as a Democrat comes off better as a Democrat than as a Republican. Muskie does better against a common opponent, Lindsay, than does Mr. Nixon. Locion Summy Globe May 23, 1571
