MEMORANDUM FOR MR. HALDEMAN

FROM: KENNETH L. KHACHIGIAN

Just before Buchanan left for Russia, he asked that I send the following request.

Essentially, for much of the analysis we do we don't have a great deal of hard information to guide us and feel it would be beneficial to have access to some poll data.

For example, knowing how to deal with Jackson rests a great deal on how he will do in Florida. If Jackson is being hurt by Wallace in Florida polls, then we may want to help Jackson if it will be at the expense of Muskie and company. If Jackson is doing too well, then a different approach might be necessary.

The same applies to other candidates. If we are to be most effective, it will be useful to have poll data to guide our activities. We are not aware that such information exists, but if it does, we feel we could be more helpful if we had access to it. Pat agrees that with the intelligence, we can keep a steady flow of reliable strategic analyses going up to and through the primaries.
