MEMORANDUM

TO: RN
FROM: Bryce Harlow ^{BH} DATE: Nov. 21, 1968

Arthur Burns telephoned late November 21 to urge "very strongly" that you avoid any involvement at all in the current international monetary crisis -- even avoiding, if at all possible, any Administration suggestion that Nixon's observers be sent to the monetary conferences or any other such proposal.

Burns insists that this crisis is their doing not yours -- and you mustn't get embroiled!
