MEMORANDUM

TO: Peter Flanigan
FROM: Rose Mary Woods

The following information was given to RN verbally at the time of the telephone call but I do not believe it was ever passed along to you.

On November 13, Hobe Lewis called to say that Dr. Norman Vincent Peale would dearly love to be the Ambassador to Switzerland. (It seems to me when I told this to RN he said that post had already been promised or filled. However, Peale is 70 and it is my understanding that we have made a rule of not appointing new ambassadors over 70 -- right?)

At any rate, you now have all of the information I have on this except that RN was enthusiastic about his wanting to be an Ambassador but I do not believe he realized he is 70.
