DATE: September 3, 1968

(1) SAN FRANCISCO - The advance man there advises me that a court decision regarding Huey Newton, Black Panther who is being tried for murder, may be forthcoming on Wednesday or Thursday of this week. They hope the decision will not be made until Monday, September 9 or Tuesday the 10th. But, in the event it should be made prior to that time, it is expected that there will be wide-spread demonstrations. Assuming he is found guilty...

(2) HOUSTON - In regard to the visit to NASA, when RN goes to Mission Control, Mrs. Nixon and Tricia should be strongly encouraged (like forced) to go to the viewing room where they can see and hear everything that goes on. If they accompany RN to the floor, the VIP's will follow and destroy the whole drill since we won't be able to get shots of RN alone in the control room. The point is, only RN and the briefing officer are to be down on the floor of Mission Control.
