PREFACE

Scope. The present list is a complete revision and updating of the 1960 edition of Presidential Inaugurations and its 1964 supplement, both compiled by the General Reference and Bibliography Division. Following the practice begun in 1949, this third edition has been prepared to serve as a guide to information on inaugural ceremonies and festivities from 1789 to the present.

Although the emphasis is on books, parts of books, and periodical articles, many items from newspapers are also cited. Since the fixed date of the ceremonies makes newspaper coverage relatively simple to trace, comprehensive inclusion of this material was not attempted.

While an effort was made to call attention to the presence of pictures in the cited publications, it was not possible to include references to the large quantity of illustrative materials relating to inaugurations in the Presidential file of the Library's Prints and Photographs Division. Some of these are listed in the second edition of Pictorial Americana, compiled by Milton Kaplan and edited by Charles G. LaHood, Jr. (Washington, Library of Congress, 1955. 68 p.).

Arrangement. As the table of contents indicates, the list comprises a general section, six sections on specific topics, and a section on the inaugurations of individual Presidents. Arrangement in each section and subsection is alphabetical, with the exception of "Invitations, Programs, and Other Memorabilia," the arrangement of which is primarily chronological. An index to authors and subjects completes the work.

Location of items is indicated either by a Library of Congress call number or location symbol, or, for material in another library, by the National Union Catalog symbol for that library.

Many references will be found to items in the District of Columbia Public Library. These materials are all in the Washingtoniana Collection at the central library; they are presently organized into seven scrapbooks and five file boxes containing folders for each President, for the subject as a whole, and for special aspects such as Bibles, inaugural balls, and the weather. Specific locations have been given for items in this collection which are described here.
