Bob Halderman

~~August 19, 1960~~

Dear Mr. Nixon:

Please accept this letter in the spirit in which it is intended. Since you are my preference of presidential candidates, I want you to do everything possible to win the coming election. The criticism that I am offering is for your own benefit. I am referring to your recent visit to ~~Seattle~~ *our city*.

You, yourself, make a terrifically good impression on the people; however, the men who came in advance of your visit to make arrangements for same did not. In fact, it is hard for me to believe that you personally hired them. One of them looked and talked like a typical T.V. gangster. Another was in an altercation with two policemen which was completely uncalled for. In attempting to reach your plane, he refused to show identification that the policemen had been informed was necessary in order for anyone to be admitted through that particular gate. He conducted himself like an ass for about ten minutes before he finally showed his identification, which he had in his wallet all the time. Apparently he considered himself too important to require identification. This little scene was witnessed by several hundred people and, frankly, I don't know why he wasn't thrown in jail.

It seems to me, Mr. Nixon, that with the all-out importance of the coming election which means so very much to you and to all of us who are for you, that you could see that a little better job is done in choosing the people who work with you. Everyone connected with you should conduct himself with dignity, courtesy, intelligence, and honor--at least until you've been elected.

I hate anonymous letters and know that they should be discarded, but I have a non-political job and cannot afford to be connected with politics. So therefore, I am unable to sign my name. I do hope, however, that you do not completely disregard this letter as it is completely true, and I have heard many unfavorable remarks about you in connection with this incident. You know, you take the blame for whoever works for and with you.

Get out there and win!

Cordially yours,

One Vote For Nixon

MEMORANDUM

TO: Bob Haldeman for Advance Men
FROM: Bob Finch

As a definite part of their instructions, all advance men should arrange to have local people take samplings of reactions on media that were used during RN's appearance in a given city. For example, since both Indianapolis and Dallas were televised as rallies we need to know whether this is the most effective use of the purchased time.

Otherwise, perhaps we should buy the same time and use it for a panel show or some other type of show.

Apart from this we need to get general reactions and these should not just come from our loyal partisans. Perhaps a regular form could be worked out on this which the advance man could leave with several people and ask each of them to get 10 responses from different types who had seen the show.

MEMORANDUM

TO: Bob Finch
Jim Bassett
Ted Rogers

FROM: RN

There has been some confusion with regard to the buying of television time by local committees.

In the future, unless I specifically indicate otherwise, the local committee should be discouraged from buying television for the purpose of covering any night rally. Under no circumstances should we buy television time for a rally -- day or night.

Whenever the local committee, or we, do have funds available for night TV broadcasts, I want this time used for a studio-type appearance by me similar to the one in Iowa -- without, of course, a bad clip such as they used in Iowa. Four or five minute clips can be used if they have good human interest material in them but, under no circumstances is a clip of a formal speech to be used in such cases.

I think these studio TV broadcasts in the evening are so effective that we should do them instead of news conferences usually and always instead of televising a night rally. The schedule should be arranged so that I can do such studio broadcasts in key states wherever possible. We should, of course, never take my time for a separate TV appearance like this in addition to the night rally in the smaller or less important states.

I would be willing, in other words, to do such broadcasts after the night rally. In fact, the Iowa format was, I thought, very good where the only thing scheduled that night was a TV "fireside chat" appearance. It occurs to me that a good way to handle this would be to have the rally in a major city on an informal basis around five or six as we come into town and then have the only event for the evening be the TV appearance around 9:00 PM.

I want us to take the initiative in the major states to carry out the last suggestion wherever possible.

MEMORANDUM

TO: Bob Haldeman
FROM: Bob Finch

On two of our stops today the busses were not marked clearly as being press busses and while most of the cars in the motorcade were otherwise marked with the occupants we still have the problem of looking like a small mobile army travelling which appears to be Nixon's own staff.

Not only the press busses but every car in the motorcade must be clearly marked for what it is -- local committee, John Jones, State Chairman, etc.

Every car must be marked so that it doesn't look like the VP has a large personal retinue.

RE: ADVANCING LODGE TRIPS

This memo will confirm our agreement to assign four Advance Men full time to the Lodge operation to operate under your direction.

This seems to be a wiser course at this point because of the large number of last-minute changes and adjustments in the Lodge schedule.

I will, of course, be happy to assign individual men on an in-and-out basis if you should need them.

TO: Advance Men

FROM: Ed Terrar

Instructions to the Motorcade Chairmen state that car number one is to be a "4-door sedan unless convertible specified". Substitute the following: "Use a convertible at all times unless a 4-door sedan is specified".

In this instance you should be sure that the top to the convertible does function since, for long rides through the open country or in inclement weather, it will be necessary to bring up the top.

With respect to the signs on both sides, it is strongly urged that the signs be of thin white paper and that an extra-wide tape be used to attach them to the doors.

TO: All Advance Men

FROM: Bob Wilson

SUBJECT: Press Conferences for Vice President Nixon

Herb Klein reports that we cannot expect press conferences on a daily basis, but the Vice President will endeavor to have them as frequently as possible.

Just for an example, in 1956 Adlai Stevenson had only two press conferences, and President Eisenhower had eight during the campaign.

We will endeavor to notify Advance Men if a press conference is a possibility. In such case, the Advance Man should stake out a room and have it available in case a firm decision is made on having a press conference.

It is a good idea to arrange television and radio coverage of each press conference. One-half hour is average time for arranging press conferences, preferably in the late afternoon or early evening.

On the first week's schedule the Vice President has tentatively approved three press conferences; at 8:00 A. M., Tuesday, September 13; upon arrival in Peoria, and upon arrival at the hotel in Minneapolis. Advance Men for these three locations should choose a suitable room and notify us the name or number of the room for our schedules.

MEMORANDUM TO: Advancemen

FROM: Bob Wilson

SUBJECT: Revised instructions on meeting local
reception committees.

Herb Klein has just approved a changed policy for a proper time interval in the schedule for meeting local reception committee and platform guests.

Rather than having this ceremony prior to the Vice President's speech, it is now deemed better, as a general rule, to bring the Vice President onto the stage or platform immediately prior to his introduction and his speech. After his speech he will then have an opportunity, which should be carefully arranged, to meet and shake hands with distinguished guests and other platform participants.

The main reason for this is to allow a period of from 20 to 30 minutes after a speech for the newsmen to file their stories before taking off for the next activity.

This is now to be SOP. Any deviations from this policy must be approved by the office.
