Dear Friend:

This is an invitation to help us form a new and tremendously important group of Governor Brown's friends, supporters, and associates. The Governor has endorsed it completely and has given us his personal list of friends, which is why we are writing to you.

You probably are working hard for Pat Brown's re-election, but we are inviting you now to make that extra effort that every great victory requires--and ours will be a great victory! Here are the goals:

Our group--Citizens for Brown--needs organizers. First, we want to count your name among the founders of Citizens for Brown. Second, we need your list of at least ten others who, to your personal knowledge, will join in this extra effort of Pat Brown's campaign for re-election.

Before November we want Citizens for Brown to have contacted every Californian who might support the Governor. Your help could bring 10 to 100 fence straddlers into the right decision on election day. We urgently need it now. Please return your card, which is enclosed, direct to the Governor. We'll write you again after he has given it to us.

Sincerely,

Cyril Magnin

TO: Governor Edmund G. Brown

FROM: Cyril Magnin and Garret McEnerney II

In the present campaign it seems to us, Pat, that a great and untapped resource is available to help fight the good fight. We're referring to the thousands of personal friends you've made over your many years of public service in California.

We think that these are people who would willingly come to the colors. Many of them, after all, are your co-workers for better government; many have served agencies that you created to improve life in California: all like and respect you.

We propose to form a new organization to give these people a voice if they feel that one has not yet been raised for them. We want them to say with us, "We're for Pat Brown for Governor" -- and we mean all of them, people in every business, profession, and political party, because you have friends in every business, profession, and party.

What we do in this organization might change the election. We want to start working now on the Citizens for Brown. What do you think?

Best wishes,

Cyril and Garret

State Construction Program Bonds For Higher Education

HERE ARE THE FACTS:

- Proposition 1A is a \$270 million bond issue. Over 80 per cent of it is legally committed to expand junior college, state college and University of California facilities.

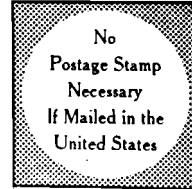

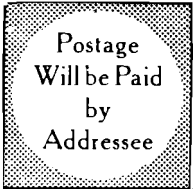

- By 1965 enrollments at these institutions will be increased by 120,000 students (40%). Present facilities cannot accommodate the increase.

- New University campuses at Irvine in Orange County, Santa Cruz, and San Diego, and two new State Colleges near San Bernardino and Inglewood will be financed by the measure. All other State Colleges and University of California campuses will be expanded. For new classrooms, \$20,000,000 is provided for junior colleges — direct relief for local taxpayers.

- The portion of the bond issue not allocated to education's needs is committed only to specified facilities for mental health, forest conservation, narcotics and crime control.

- This program makes badly needed facilities available when they are needed — without large tax increases. It allows those who benefit from the facilities to later help pay for them by spreading costs over many years.

REGISTRATION

Just two more weeks remain to win the election.

Mrs. Elizabeth R. "Libby" Gatov, chairman of the Northern California Registration Committee, sent this word out as the Democratic registration program got set for the big final push.

"It is almost literally true that the November election can be won by the September 13 registration close," said Mrs. Gatov.

"And if the climax to our drive is successful, we will be in a position to win elections for years to come."

To help stimulate the final push, a number of awards will be given to top registrars.

They include the opportunity to meet President John F. Kennedy, the chance to spend a day campaigning with Governor Brown and free tickets to the \$100 a plate Governor Brown dinner October 9 and the Attorney General Mosk dinner September 11.

Full details will be announced in the next registration bulletin. Copies are available at this headquarters.

TELETHONS

Governor Edmund G. "Pat" Brown announced plans for a series of ninety minute telethons in which he will "carry our record of Democratic achievement in California directly to the people."

FOR MONDAY A.M.'S RELEASE

Governor Edmund G. Brown today announced the appointment of Herbert O. Dorken, 37, a nationally recognized clinical psychologist, as deputy director of the Department of Mental Hygiene for liaison and prevention.

Dorken succeeds Dr. Eli M. Bower who has left the department to work for the National Institute of Mental Health in Bethesda, Maryland as a consultant in mental health in education.

"I am particularly pleased to announce Dr. Dorken's appointment," the governor said. "He is a young man with a distinguished record both as psychologist and administrator.

"I commend Dr. Daniel Blair, director of the department, for the energetic search which lead to finding a man of Dr. Dorken's caliber to fill this important position."

Dorken will assume his new duties August 6. His salary will be \$1419 a month. He serves at the pleasure of the director.

A native of Quebec, Dr. Dorken was active in establishing and operating Canadian provincial mental health services over a 10-year period. In 1959 he launched a program to set up a statewide program of community mental health services throughout Minnesota and served as director of the operation. Most recently he has been engaged in establishing psychiatric treatment services as director of the Range Mental Health Center in Virginia, Minnesota, developing and organizing a program for some 100,000 persons in the state's Iron Range area.

Throughout his career Dr. Dorken has been widely published in professional papers dealing with application of psychology to diverse areas and with community mental health programs.

In his capacity as deputy director for liaison and prevention, he will continue the department's drive to establish a stronger bridge of

communication between civic, social and educational agencies and organizations and the department. On the twin fronts of treatment and prevention, Dr. Dorken will be charged with developing information needed by lay and professional persons in planning and utilizing mental health resources.

He will be closely associated in his work with Dr. Edward Rudin, deputy director of community mental health services for the department.

Dr. Dorken took both his Bachelor of Science and Eastern degrees at McGill University in Montreal. He received his Ph.D. in clinical psychology at the University of Montreal, and underwent a further period of academic training in the American Psychological Association's post-doctoral workshop dealing with psychologists in administrative programs.

His professional affiliations include fellowships in the American Psychological Association, the Midwestern Psychological Association, Society for Projective Techniques and the American Association for the Advancement of Science and membership in the Minnesota Psychological Association and the American Public Health Association.

Dorken and his wife, Irene, have two children, Sandra, 10, and Bradford, 7.

Prior to spearheading the new program in liaison and prevention for the department, Dr. Bower was research coordinator for the State Department of Education. He directed the latter department's outstanding and nationally recognized research study on emotionally disturbed children in California schools. He was also the department's consultant in mental hygiene and mental retardation, and is author of a number of books and articles in primary prevention of emotional disorders.
