To the President of the Union, and to the Congress of the United States,

Sir,

I am informed that there is a general opinion among the people of this country, that it is now the duty of the government to take measures for the better preservation of the Union. This opinion is founded on the tenets of the late administration, and on the declarations of the late Congress. The government, however, has not yet taken any steps towards the preservation of the Union. The people of this country, therefore, are impatience, and they are determined to take measures for the preservation of the Union, and to resist any attempt to destroy it.

I am, sir, your obedient servant,

HARTFORD, March 19—In a move that many view as an attempt to disrupt the state convention, the state party has sent out a mail-out initiative aimed at recruiting Democratic delegates to the party's convention for the April 19 meeting. The initiative, called "The Voice of the People," is designed to attract new delegates, many of whom are not currently registered with the party.

Democratic leaders hope to use this initiative to shape the convention, which will be held in Waterbury next week. The goal is to ensure that the convention is not controlled by the party establishment, which has traditionally dominated the convention process.

The initiative includes a series of mail-outs to potential delegates, each of which includes a letter from Democratic leaders, along with a petition to support their cause. The letters encourage delegates to support a "new" Democratic Party, characterized by a smaller, more grassroots organization.

The initiative is seen as a direct challenge to the state convention, which is traditionally controlled by the party's establishment. Democratic leaders hope that by attracting new delegates, they can ensure that the convention is not controlled by the same old guard.

The move has been met with mixed reactions from within the party. Some see it as a positive step towards a more inclusive party, while others view it as an attempt to undermine the party's traditional structure.

In Waterbury, the initiative has been met with some resistance. Some delegates have expressed concerns about the initiative's impact on the convention, and have called for it to be stopped. However, others have welcomed the move, seeing it as an opportunity to bring new voices into the party.

The Democratic Party is facing a challenging time, as it tries to navigate a new political landscape. The party is seen as being out of touch with many voters, who are looking for a new direction.

The initiative is a step in this direction, and it remains to be seen whether it will succeed in attracting new delegates to the convention. However, it is clear that the party is determined to ensure that its voice is heard, and that its priorities are reflected in the convention.
Strange Case Richard Nixon
President Resigned
Democrats Panic
Brown's Nonpartisan Spots
All Out Efforts Of Democrats

Not enough time was taken by President Nixon to resolve the question of his future in office, or enough votes were not made in the House of Representatives for his impeachment. The situation was chaotic and the state of the nation was unstable.

Brown was the one who made the decision to run as a nonpartisan candidate. This decision split the Democratic Party and caused chaos in the state of California.

The Democrats have been_Row d in registration over Republicans in California, but now it is time to make the decision and move forward. Brown's nonpartisan approach can be a solution to the current crisis.

The Democrats will have an advantage if they can make their own decision and move forward. The strength of the nonpartisan approach can be a solution to the current situation.

The nonpartisan approach can be a solution to the current crisis. Brown's nonpartisan approach can be a solution to the current crisis.

Dear John:

Thanks very much for sending me a photostat of the article from the San Francisco Chronicle. I agree with you that the wolves are getting pretty desperate, but I guess they have to have something to attack.

I certainly enjoyed being with you and Phil Boyd at the Jonathan Club dinner, and very much appreciate your thoughtfulness in including me in your party.

I am awfully sorry I didn't make the Beta banquet on the 15th, but am afraid I am going to miss many such occasions in the year ahead.

I hope we can call on you for some help as the campaign gets under way in the coming months.

Very best regards.

Sincerely,

H. R. Haldeman
Dear Bob,

Following the dinner at the Jonathan Club the other night, a friend told me about a recent article appearing in the San Francisco Chronicle. At my request he obtained a photostat of the article which I am enclosing in case you missed it. Looks like the "political wolves" are getting pretty desperate to start "nipping" at you!

Good to see you again, Bob, and my very best wishes for a successful campaign.

Hope you can make the Beta banquet on the 15th. I would like you to sit at the head table and take a bow.

Cordially,

November 19, 1961

This will confirm our understanding that from now on Sandy Quina will assume responsibility for sending an appropriate and brief note to newspaper editors acknowledging each friendly editorial that their paper runs, when such a letter would be appropriate.

Sandy will continue to receive and scan the major newspapers which he is now getting, but Agnes should be sure to mark all clippings of friendly editorials from the much wider list which she covers so that Sandy will acknowledge these too.

MEMORANDUM

TO: BN
FROM: HERB KLEIN

I. Report On Newspaper Attitudes In San Bernardino And Orange Counties And Some Suburban Areas Of Los Angeles.

In San Bernardino County some work needs to be done with the Guthries. The older Guthrie, Jim, was appointed to the Highway Commission by Warren, Knight and Brown and feels some allegiance to each. He also supports Harry Sheppard although the San Bernardino Sun basically is Republican. The basic decision will be made by Jim Guthrie although his son, who has taken a more active role in management recently, will figure into it.

In Redlands Bill Moore, who is the Business Manager and Co-publisher of the Facts, is highly favorable to you and offered assistance. He is active politically. His brother, who serves as Editor, was colder and I recall that he wrote some pro-Rockefeller editorials last year.

In Riverside the Press-Enterprise will endorse and in all probability will favor you and Kuchel. The decision will be made by Howard Hays, Sr., the Publisher, and through his son, Tim, who functions as Editor.

Ontario. Mrs. Harnish is the key factor on the Ontario report and is a growing political figure. She was out of the city, but I talked with her son and with the Editor, who formerly worked for me. They were friendly and invited me to talk to Mrs. Harnish by telephone, which I did.

In Orange County the new Garden Grove paper, the News, is Democratic. The Anaheim Bulletin has become about as conservative as the Hoiles Santa Ana Register. Virgil Pinkley is a new factor, having purchased the Orange paper and the two weeklies. In the primary, the Anaheim paper now intends to support Shell and I assume the Santa Ana Register will do likewise. I believe the other papers would support you. There are some new dailies out of Costa Mesa and Newport Beach, published by Walter Burroughs and Ben Reddick respectively.
I have not yet had a chance to look at them but will. Reddick has some obligation to Knight, having been appointed by him to the Orange County Board of Supervisors.

In Fullerton Ed Elstrom was out of the city when I called, but I left your regards and talked to his Editor who was very friendly.

In Los Angeles County Jackson Berger, the Editor of the Cowles paper, the Valley Times, offered every assistance. He said he believed there has been a swing away from Kennedy there. The Pasadena Star-News people, including Lee Merriman, fully said they plan to endorse you.

I will check further on Pomona and the new paper in Covina, but I assume these will be safe.

In general, it is quickly evident that the strongest amount of conservatism is in Orange County and that Shell has been able to pick up some strength there with party workers and with an organization which calls itself the Conservative Council. Attached is a clipping explaining the aims of the Council. It is supported by the Anaheim and Santa Ana newspapers.

I talked at the Orange County Press Club and answered an hour of question and answers with them. I found that generally this working press group was very friendly toward you, with the most obvious opposition coming from Garden Grove.

II. When we were talking while you were in San Diego, I mentioned five points which had been made by an anti-communist named Cleon Skousen during the Richfield telecast. I have heard these repeated by many people. The five points, most of which I disagree with, are as follows:

1. A Congressional investigation of our State Department.
2. Re-write the United Nations Charter or the United States get out of it.
3. Outlaw the Communist Party in the United States.
4. Tell Russia to take your spies and go home.
5. Resolve 100% trade embargo against Soviet-Bino bloc.

III. I talked with Joe Shell and his father at considerable length this week. Joe claims to be well financed so as to begin using television soon. He already has some
billboards. While Joe still is a minor factor in the race from what he has said and from what I have picked up in my travels, I am sure that he has made some definite inroads with party workers. He drops some substantial names into the conversation. In San Diego his father, as a respected, retired judge, will be able to get some support for him on a personal basis from people who might normally be assisting you. Joe makes a point that he feels that he will be disagreeing with you on a number of state issues such as the loyalty oath but that he intends to keep the race entirely clean. I think he will.

Dear Bill:

Thank you very much for sending on the copies of the Syracuse newspapers. I certainly do agree that they gave wonderful coverage to the Monday night dinner.

A principle reason for this, of course, was the fact that the dinner was so beautifully staged and executed, and no small part of the credit for this goes to you.

I was very glad that it worked out for you to join us on the flight to New York and I trust that you got to your hotel alright that night.

It was a pleasure to work with you and I trust you will let me know if you're ever out here in California so we will have a chance to renew our all too brief acquaintance.

Just a note to thank you for your thoughtfulness in sending on to me the clipping from the Examiner regarding my appointment as Nixon's campaign manager.

As you well recognize, a very busy and intensive year lies ahead, but I am very much looking forward to it and am convinced that the electorate will recognize the opportunity they have in electing Dick Nixon as our next governor.

I hope to see you soon. In the meantime, very best regards.

Thanks very much for your note of November 15 and the attached editorial from the Chronicle. I have brought this to Dick's attention and he appreciated your sending it down.

I was certainly glad to learn that Templeton Peck was favorably impressed by Dick's meeting in the Chronicle office and I certainly hope that this attitude will continue.

Nixon vs. Birchers

IN HIS POLITICAL DISCUSSIONS this week with San Francisco Republicans, gubernatorial candidate Richard M. Nixon revealed an awareness not only of Democratic weak points but also of the threat to Republican strength that comes from the extreme right. He specified the John Birch Society.

His repudiation of the Birchers having been on the record since the society first came to public notice last March, Nixon is in a position to use his considerable influence for keeping the GOP program free of the Birch trademark. In this he has our hopes for complete success.

THE BIRCH METHOD of smear and character assassination must not be allowed to corrupt the political process by which Republicans fight to get elected. In announcing his candidacy for Governor, September 27, Nixon said he would not accept support from any group whose tactics in fighting political battles he did not approve. In San Francisco this week he reaffirmed that stand. We welcome it and earnestly hope that other Republicans, whether candidates for office or workers in the party ranks, will take notice of the principle expressed by Nixon, namely, that you don't fight Communists by using the same evil methods they employ.

Word has reached the east that you are to be Dick Nixon's campaign manager in the coming race for governor of California, and I want to say that if, in the months ahead, all Nixon's decisions are this sound, he will end up in Sacramento.
