Dear Mr. Klein:

Although we do not have your address, we are hoping this letter will reach you.

You will remember our participation in the '60 campaign for our area - Uno was chairman and I helped him - we had an organization the like of which was never before seen in this valley and a headquarters known to many throughout this State - and other States. We were given the use of a building owned by Mr. G. Gifford Davidge - situated on Highway 150 in the town of Solvang where tourists throng - and we had a spotlight on a large sign every evening from 6 pm to 11 pm.

Uno and I were charter members of the County Nixon-for-President Committee and worked from March to November - first from our home and later during the Nixon-Lodge Campaign from the headquarters in Solvang. I might say that the reason for this was an intense motivation to do what we could in what, by a deep inner conviction, we believed was a crucial period in our country's history - a turning point. And after studying all the candidates - even regardless of party - we believed that of them all, Mr. Nixon had achieved the most self-mastery in life - vital when, as we still believe, the survival of our form of government was and is at stake.

We believe we can be of help to Mr. Nixon in the campaign for governor of California - if he cares to
accept our assistance. We wanted nothing during the '60 campaign and we want nothing now. We only wish to do our part for our country. We are not politicians and in the past have not engaged in such activities, but we are not devoid of experience in life and have some talent for organization. Uno is a Swede of Finland and a naturalized citizen - he came to America as a boy - is personable and I may say that I know of no one in this valley who could have done what he did in obtaining committee members for the Nixon-for-President Committee of which he was chairman. We worked quietly from our home and before anyone knew what was happening, we had some 130 members. Later we grew to about 215 members. As for me, except for an English grandfather who came to the United States when a boy - went whaling - came around the Horn in '49 to San Francisco and who founded the Pacific Coast Steamship line of coastal vessels of which Senator George Perkins was a later partner - my other forbears came to Massachusetts in 1620 - were first settlers on the Rappahannock - naturally this will explain a certain rugged American individualism that is ingrained in me. I love my country.

Now for practical ideas. Mr. Shell was here during the summer - entertained at a Republican luncheon at the "Red Barn" in Santa Ynez. He made a favorable impression. He has a following that is increasing. The new President of our local Republican Women is for him in the primary. I have heard that William McKillop who was the Republican Candidate for State Senator in '60 is for him. Mr. Shell wrote to ask
Uno and me to be on his committee. We thanked him but said we were offering our support to Mr. Nixon.

We have saved left over material from the campaign and have the lists of names of those who were on the Nixon side. Unfortunately, some of them are already lined up for Mr. Shell. And, although I know that Mr. Nixon thinks much about timing, we believe that no time should be lost to contact the others before they commit themselves elsewhere. (The Democrats have been ringing doorbells in their money drive). Also, we have $40.00 in the local bank for Mr. Nixon - we finished in the black.

The building used for headquarters last year is still vacant - the rent is high and it is for sale - so it is still empty. If someone could see Mr. Davidge - he is well known in the Republican party of Los Angeles - he might let the building be made available - a very important location on a much traveled road. I should like to talk more with you on these matters.

At the moment, as you can understand, despite our readiness to be of use, we can do little until directed and authorized by Mr. Nixon - in which case we can do much. And time is of the essence.

Hoping this will reach you,

Very sincerely,

Dear Mr. and Mrs. Sandvik:

I have your letter of October 12 addressed to Mr. Herb Klein concerning your participation in the Nixon for Governor Campaign.

On the basis of your outstanding participation in the 1960 Presidential Campaign, we certainly want to take advantage of your kind offer to help out again this year.

As you can imagine, we are very heavily engaged at this point in setting up the basic campaign organizational structure for our headquarters. As soon as this is completed, we will be ready to start setting up an organization throughout the state and will at that time contact you regarding plans for Solvang.

In the meantime, please hang on to the campaign materials and name lists which you have from 1960 as these will, of course, be most helpful in the coming year.

I hope you will feel free to let me know if you have any immediate thoughts on steps that should be taken other than exploring the availability of your headquarters building. I will see that someone contacts Mr. Davidge regarding this as soon as possible.

Thank you very much for writing and for your interest in the campaign.

Sincerely,

H. R. Haldeman

Loie -

Scraping through the barrel of notes from the recent San Francisco trip, I find that RN tried to call Jerd Sullivan at the Crocker Bank, but did not talk with him.

I placed the call and got Sullivan who said he was in a meeting and thus unable to talk, and suggested we try to call later. We did try later, but by then the bank was closed.

Sullivan should probably have a note from RN saying he had hoped to chat with him, but will try again.

Dear Al:

Just a note to let you know that Dick's February schedule includes two appearances in your district. On February 11th he will be at the Westminster Presbyterian Church for a Negro Church Reception in Pasadena, and on February 13th, he will be attending the Brito Benefit Dinner at the Huntington-Sheraton Hotel in Pasadena.

I expect to be in Washington on Monday, February 5th, and hope it will be possible to spend a few minutes with you at that time so that we can establish a direct procedure for notification and clearance for Dick's activities in your district.

Meantime, very best regards.

Dear Mrs. Stolp:

This will follow up your recent correspondence with Mr. Nixon regarding your kind invitation to him to address an evening meeting of the Escondido Republican Women's Club sometime in March. I regretfully must tell you that the efforts of the Schedule Committee to clear a March date on his calendar when he could visit Escondido have not been successful.

Consequently, he will not have the pleasure of accepting the very cordial invitation you have extended. However, we will be in touch with you again when we visit the Escondido area sometime during the campaign and look forward to meeting with your members then.

Dear Mr. Sholders:

This will confirm your recent telephone conversation with Mrs. Rollins of our office in which we had to regretfully turn down your kind invitation to Mr. Nixon to address the Pacific Southwest Council Convention of the American Society of Civil Engineers in San Diego in April.

Unfortunately, we have had to make a firm rule that Mr. Nixon not accept speaking engagements for national and regional conventions. We recognize that in many cases, and certainly this is true in yours, the audience will include very substantial and important groups of Californians. However, if we deviate from the rule once, we have no basis upon which to stick to it on other occasions.

Thank you again for your invitation, and we regret our answer must be as it is.

Much as he would like to participate in your annual spring banquet, he must reluctantly decline as his schedule for that date is fully committed.

Again, you may be sure that he would like to accept your cordial invitation and is extremely sorry that a prior commitment makes this impossible.

We very much appreciate your thoughtful invitation.

Also, I want to take this opportunity to assure you that the Stanford Area Young Republicans would certainly be contacted and included in the arrangements for any such occasion it might be possible to work into his schedule later on.

This is to assure you the invitation is being carefully considered, and just as soon as we have something definite to report, we will be in touch with you. We are hopeful something may be worked out that will prove mutually convenient during the time you have specified.

Mr. Nixon appreciates your invitation very much and I know would like to accept if it is possible to include this in his already heavily committed schedule in the months ahead. You will be hearing from us a little later.

Mr. Nixon has discussed with me your letter of January 8th. He is most interested in the California Wildlife Federation and appreciates the information and suggestions you have passed along. In the interest of a prompt follow-through with the campaign staff, Mr. Nixon asked me to write you direct.

I am eager to meet with you and, of equal importance, have you meet Mr. Norton Norris on our staff who will be handling the type activity involved. Are you still planning to be in Los Angeles February 2nd and 5th? If so, would you let me know either by note or by telephone so that we can try to arrange a time to get together? Although there is a possibility I may have to be in the East at that particular time, I would urge that you meet initially with Mr. Norris rather than delay our visit with you. He is fully apprised of our contact with you.

Again, may I express Mr. Nixon's appreciation for your letter. A "Sportsmen for Nixon" Committee would be a real asset and your thoughts and help in this connection would be valuable to us.

Mr. Norris and I will wait to hear from you regarding your Los Angeles visit, and will hope to have a chance to sit down and talk over this matter in detail with you soon.

Dear Mr. Mixon:

I'll introduce myself by saying I had the honor of meeting you in the elevator of the El Mirador Hotel in Sacramento last April while you were attending the Republican Caucus and I was attending a quarterly meeting of the California Wildlife Federation. I didn't have the opportunity to fully answer your question regarding the status of the California Wildlife Federation (CWF).

CWF is the largest sportsmen's organization in the state, and the only state affiliate to the National Wildlife Federation. A non-profit group, comprised of councils made up of local Rod & Gun Clubs, fishing, boating, hunting, archery, skin-diving, and so on. I serve as one of the 27 directors; one of the three from the California Bowman Hunters, a member council, of which I am the Legislative Representative. My outdoor interests have also enabled me to serve in office of the Sportsmen Councils of Northern California, which I helped organize in 1959.

I received a phone call from Fresno a few minutes ago from a fellow CWF Director asking me to join with he and others as an active member of the "Sportsmen for Pat Brown" effort they hope to organize. I recall a similar 'opportunity' about four years ago, when I merely stated I wasn't interested in the Pat Brown 8 point program, and wouldn't support it (for sportsmen). I wish I had actively opposed it, or invited Mr. Knowland's opinion at that time.

The men already interested in this new program to be outlined by Brown command enough respect from me, at least, to encourage me to get into action. I believe I can muster an equally talented following among sportsmen all over the state to beat them to the punch with a "Sportsmen for Mixon" effort. I'm willing and eager to devote my spare time to this not only to restore comprehensive leadership to the 'corner office' for the sake of our renewable resources, but for the far-reaching economy of the people of the state.

My wife and I expect to be in Los Angeles February 2nd and again on the 5th, going to and from San Diego. Would it be out of the question for me to arrange a meeting perhaps during lunch with you or your manager and some of my Southern California colleagues? My kindest personal regards.

We do very much appreciate your generous offer and maybe we can take you up on it when you get back in September. In the meantime, have a good trip.

COMMUNITY RELATIONS
AERONUTRONIC A DIVISION OF Ford Motor Company.
Last week, in Bal Harbour, Florida, the AFL-CIO meeting at its Fourth Constitutional Convention approved a resolution on political education, the preamble to which says in part:

"Recent innovations in political activity on the part of business have solidified into an established pattern. More business groups and individual corporations have highly-trained, full time staff personnel working to extend the base of their political influence.

"Political 'orientation' and 'educational' classes and materials are directed not only at executives and supervisory personnel at every level, but at the workers, our own members."

The resolution, officially designated as No. 141, also notes that "... there can be no question of the sincerity of our determination to expand and improve our political operation" and then goes on to detail six specific areas of action for COPE, the Committee on Political Education.

For the interest and education of public affairs directors ECO has edited Resolution No. 141 and also the transcript of the convention proceedings during which it was approved and adopted. The edited text follows:

Political Education -- Resolution No. 141

"We accept our responsibility as Americans and as trade unionists to participate fully in the political life of the nation. There is no piece of legislation passed
by the Congress, no administrative decision made by a government agency which
does not bear in some way on the lives and fortunes of trade union members.
There is no real question of whether trade unions should concern themselves
with politics.

"As there can be no question of the propriety of our political activity, there
can be no question of the sincerity of our determination to expand and improve
our political operation. We join together in our political effort for precisely
the same reasons we earlier joined together in a struggle for economic recognition.
Singly our voices are weak; in chorus they are strong. Singly our campaign
dollars are anonymous small change; together they are recognizable representatives
of a definite point of view, even if they can never match in size the donations of
the wealthy. Separately we have not the resources to inform ourselves on issues
and candidates; together we have.

"It is a matter of gravest concern to us and to the country that there is a con­
certed and malignant conspiracy to render the labor movement ineffective. This
conspiracy, which exists between certain leaders of large corporations and groups
within both political parties, has as its immediate objective the use of political
power to so constrict labor unions as to render them ineffective at the bargaining
table.

"Recent innovation in political activity on the part of business have solidified
into an established pattern. More business groups and individual corporations
have highly-trained, full-time staff personnel working to extend the base of their
political influence. Political 'orientation' and 'educational' classes and mater­
ials are directed, not only at executives and supervisory personnel at every level,
but at the workers, our own members.

"It is generally agreed that, in the 1960 election, liberal candidates owed their
victories in large measure to the record number of votes in industrial areas re­
sulting from the AFL-CIO's crash registration drive.

"The success of COPE registration and get-out-the-vote drives rests on the number
of membership lists made available by local unions for processing. All national
and international unions should direct their locals to turn over these lists to
the properly constituted COPE body, reminding them that similar lists are made
available to our opposition from the personnel files of employers.

"We commit ourselves to the expansion and broadening of our political education
and political action programs to insure that the freedoms we cherish will remain
forever unimpaired. Now, therefore, be it

"RESOLVED: This fourth convention of the AFL-CIO vigorously reaffirms its dedica­
tion to the principle of non-partisan political education as a necessary ingredient
of responsible trade unionism.

"1. We hold it to be a primary obligation of trade union membership that each member
of an affiliated international or national union be a registered voter.
"2. We call upon each national and international union to designate one or more full-time staff members who will work to assure full participation of each local union, its officers and members, in the COPE program.

"3. We urge that each local union appoint a COPE committee which will designate a COPE chairman charged with the responsibility of coordinating the local's COPE program with the city or county COPE.

"4. The State COPE's are charged with the responsibility for effective distribution of these (Congressional voting) records as a primary function of political education activity.

"5. We are an important source of campaign funds. Candidates who support a liberal position cannot look to big business for big money to finance their campaigns. No degree of activity by National COPE, no amount of literature, no number of earnest resolutions can fill this void without the full support of each affiliate.

"To this end we urge, (1) that meeting the modest COPE quota be accepted as a definite obligation of each affiliated national and international union, and (2) that the month of May be designated each year for a full, coordinated drive to collect voluntary dollars, with the cooperation of all local, national and international union staffs, officials and publicity media.

"6. We authorize the National Director of COPE to initiate and supervise the formation of state operating committees in those states he may select as being of particular importance in the 1962 elections.

"We call upon all members of the AFL-CIO to start to work today on the November 1962 elections."

Proceedings of the Convention

COMMITTEE SECRETARY MCDONALD: "Mr. President, on behalf of the committee, I move adoption of the resolution." . . . The motion was seconded.

PRESIDENT MEANY: "You have heard the Report of the Committee on Resolution No. 141 and the motion is to adopt. Is there any discussion?

"I would like to take just a minute or two to comment on this resolution. The trade union movement has been actively engaged in the political field some 13 to 15 years. Of course, we were in this field before that, but not in an organized active way. I think the real activity came when we realised the effect of Taft-Hartley in 1947, the damage that could be done to us through legislation. We got a real picture of how we could be punished, how the gains we had achieved over the years could be taken away through punitive legislation.

"During all of this period, there is one phase of the work that has interested a good many people, myself in particular. This was the phase of the work which applied
to our own membership. We found out by a survey some years ago that the exercise of the voting right on the part of the trade union people in America was no higher than the national average of all those people eligible to vote who exercised the franchise on election day. In fact, we felt that in a good many cases we were below the national average. So for many years we have been thinking about how we can get our own vote out.

"It doesn't make much sense to appeal to the citizenry who are not closely connected with the trade union movement, to ask them to vote for people we feel have a proper attitude towards the things we favor. If we can't get our own people to vote, it doesn't make much sense to ask others to vote.

"However, we have done a lot of talk about this and have tried a few little experiments here and there. But in 1960, we went into this thing in a big way. We concentrated our efforts in 14 States and in the particular population. We put on where there was a large industrial population. We put on campaigns, non-partisan, if you please, to get the people to register and to vote. Of course, we cooperated with all groups that had the same purpose, the purpose of getting the vote out. Naturally we concentrated, as I say, in the areas where we felt the voters who come out would be sympathetic in the vast majority to the things that we espoused.

"I can say to you this effort in the 14 States was successful beyond anything we could possibly have expected. We raised the registration rolls in the national election of 1960 by millions of voters in these particular States; hundreds of thousands in one State, 200,000 in another, 50,000 in another State. And the candidate that we supported was successful in 12 of those 14 States.

"This is a very important vote and, as I said before, we found out in 1960 that this effort can be successful, that we can increase the number of those coming to the voting places on election day and that we can in a good many places be the determining factor in marginal districts between the election of a candidate unfriendly to us and a candidate who is sympathetic to the things that we are for.

"I commend the Committee on the presentation of this resolution. I think it is one of the most constructive resolutions we will have before us.

"Is there any further discussion on this matter?"

DELEGATE SAM POLLOCK, Portage County, Ohio Central Body: "In support of the resolution, I also want to comment that it does not go far enough insofar as its expression as to the type of activity that COPE may be engaged in from time to time.

"I know that in Ohio we have been confronted time and time again, and I am sure this is true in many other states also, where on the local level we have candidates that have been put forward by both the Democratic and Republican parties, who under no circumstances are acceptable to labor. The result is that we sit out that campaign, that all of our efforts to get our people registered, all of our efforts to campaign in behalf of the issues in which we are interested go by the wayside, because we have no candidate that will carry forward the ideas of labor.

"For that reason, I would strongly urge, if it is not implied, and I would certainly like an expression from the Chairman of the Resolutions Committee if it is not
implied, that we are to consider very seriously that in the absence of an acceptable candidate that does not meet the test as put forward in this resolution by COPE that it shall be a responsibility of COPE in those areas to put forward an independent labor candidate to carry forward the ideas and the needs of the labor movement. Thank you."

PRESIDENT MEANY: "I think that you have put your finger on a very practical problem that occurs from time to time, and I am sure that it is the policy of COPE and the people directing COPE to do just what you suggest where that is possible, and where it is practicable to do it.

"I am quite sure that there is no need to have a special resolution on this or insert it in this resolution. This is strictly a matter of the judgment of the directors of COPE and the COPE Committee in the local area. Wherever it is practical and possible to put up an independent candidate, I think it should be done. I am quite sure that the directors of COPE take the same point of view.

"Is there any further discussion? Those in favor of the motion to adopt the resolution No. 141 please signify by saying Aye; contrary No. The Ayes have it and it is so ordered."

... Committee Secretary McDonald continued the report of the Committee..."

Dear Tom:

Thanks very much for your letter of November 14 and for your congratulations.

I doubly appreciate the Shillelagh since I am sure that things will become amply rough before very long.

Bob Flinch handed me a copy of your resume dated July 1961 without much explanation. I assume that you may have some interest in getting into the campaign, and, if so, I would appreciate hearing from you as to the amount of availability and on what basis, and also what you feel you would be most interested in doing in the campaign.

Looking forward to hearing from you. In the meantime, best regards.

Sincerely,

H. R. Haldeman

Mr. and Mrs. Uno Sandvik
Rancho Contento
Solvang, California

Dear Mr. and Mrs. Sandvik:

I have your letter of October 12 addressed to Mr. Herb Klein concerning your participation in the Nixon for Governor Campaign.

On the basis of your outstanding participation in the 1960 Presidential Campaign, we certainly want to take advantage of your kind offer to help out again this year.

As you can imagine, we are very heavily engaged at this point in setting up the basic campaign organizational structure for our headquarters. As soon as this is completed, we will be ready to start setting up an organization throughout the state and will at that time contact you regarding plans for Solvang.

In the meantime, please hang on to the campaign materials and name lists which you have from 1960 as these will, of course, be most helpful in the coming year.

I hope you will feel free to let me know if you have any immediate thoughts on steps that should be taken other than exploring the availability of your headquarters building. I will see that someone contacts Mr. Davidge regarding this as soon as possible.

Thank you very much for writing and for your interest in the campaign.

Sincerely,

H. R. Haldeman

Dear Mr. Solo:

This short note is to acknowledge with thanks your recent call to Mr. Nixon's office relative to what you consider to be a different approach to effective campaigning.

We are busily engaged at this time in developing plans and an organizational structure and would appreciate a letter from you wherein you outline your proposed program in greater detail.

Thank you again for your interest and kind offer to help.

Very truly yours,

Dear Mr. Sugarman:

This short note is to acknowledge with thanks your kind offer of assistance in the forthcoming Nixon for Governor Campaign.

We are currently engaged in developing plans and an organizational structure, which is, of course, an essential first step. We did want you to know that you will be contacted soon after the first of the year regarding your participation.

Thank you again for your interest and kind offer of help.

Very truly yours,

Dear Dick:

Mr. Nate Sugarman, 6111 Wilshire Boulevard, Los Angeles 48, telephone WEBster 92141, is one of a number of people who would like to be of assistance in the forthcoming campaign but who, for some reason or other, has not been called on for assistance by the Republican Party in past years.

I had occasion to have lunch with him the other day and I believe he should be called on to render such assistance as he is able to provide. As you know he comes from an early Los Angeles family and has many contacts in this general area.

Best personal regards.
