Dear

Since, due to the large number of elective positions, it is virtually impossible to evaluate each candidate for each office, especially in the primary election, a group of active Republicans who's names appear below have gotten together and made a study of the various prospective candidates. We have heard these individuals speak, read their literature, sent out questionnaires, and checked their qualifications with other local political leaders.

The result of our study is the attached list of "recommended" candidates. If you have had time to investigate the candidates you may find that you disagree with us on a few choices. That's certainly understandable. But, basically, I think you'll agree with our choices 99 percent.

In the Congressional and Assembly areas the recommendations have been made by people who live in these areas and are familiar with the candidates and the local situation. For this reason, and because the individuals working on this project were not un-animously agreed on all of the offices, the endorsement is strictly my own.

We are proud to be able to endorse and recommend the following men. They are all outstanding leaders, fully qualified for the offices they are seeking. They have all been civic leaders and politically active. They have had the courage to speak out on the issues which face California in this election. They are, in our opinion, the best qualified and most suitable candidates for office. I hope you will agree, and I hope you will be sure to vote in the primary election on June 5th.

If you desire additional copies of this list for any reason please contact me.

Sincerely yours,
