3 April 1969

MEMORANDUM FOR: The 303 Committee
SUBJECT: The Chilean Congressional Election

At Ambassador Korry's request, I am forwarding with CIA's final report the Ambassador's remarks relative to the Chilean congressional election program. I quote below from Ambassador Korry's message of 7 March 1969 cabled through CIA channels.

"I would appreciate the 303-Committee being informed of my great appreciation for the excellent contributions to U. S. goals in Chile by the first-rate contribution of the Chief of Station and his colleagues to the election operations. I am persuaded that we had maximum impact in electoral terms for modest resources employed and that we benefited greatly from carefully selected multiplying-effect choices manipulated in a highly skilled manner. Your associates in Chile demonstrated anew their serious dedication to excellence by the discretion with which they established and operated a mechanism and by the excellent cooperation they provided me and our colleagues in the Embassy at all times."
