March 4, 1971

Dear Mr. Milhous:

The President was deeply grateful to read the comments in your letter of February 13 and appreciated the spirit in which you wrote concerning your brother. As you will note in the attached copy of his letter to Philip Milhous, he completely understands the many pressures to which any relative of the President may be subjected.

It was thoughtful of you to give the President the benefit of your thinking on some of the major issues which confront our nation today -- namely, the ecology, the economy, and the problem of adequate medical care for all Americans.

You may be sure the President shares your hope that one of these days it will be possible for all of you to get together for an old-fashioned visit. In the meantime, he has asked that I send his thanks and warmest personal regards to you.

With all good wishes,

Sincerely,

Rose Mary Woods
Secretary to the President

Mr. C. E. Milhous

Turlock, California
February 13, 1971

Dear Richard

On February 12, 1971, my brother Phil and his wife of Grass Valley, California made an appearance on TV in a special news report. Please, accept my apology as a member of the Milhous family for it is my opinion that it was an act of very poor taste. They have both been sick of body for several years and now I believe that their minds have been affected also.

The main reason for this letter was to express my feelings about the Phil Milhous news incident; but while I am writing, will you please accept a layman's views of three very important subjects to most everyone in the U.S.A? Don't you think that the big S.S. jet plane can become a real ecology problem? Why don't we spend more money for outer space to keep up with other nations, in case that space vehicles are used in future wars, instead of so much for "moon" and other planet exploration? And don't you really think, that if the unions keep jacking up the wages, that price and wage control will have to happen? If so, everyone should be controlled - even doctors, nurses, hospitals and drugs for these services take so much of the older retired peoples limited income. Another method would be for the government to produce and sell drugs to the needy at cost.

Thanks so much for taking time to hear my version.
I surely hope some day, possibly after we retire, that we can
get together again and have a real good old fashioned visit.

Very respectfully

Your cousin

s/Charley E. Milhous

741 E. Linwood

Dear Louis:

Pat and I are delighted with your most generous gift of Baccarat crystal. You may be sure we will greatly enjoy using it. As a matter of fact, it is so beautiful I have decided to keep it for use in our family dining room, rather than take it to Camp David as I had first thought I might do.

With appreciation and warmest personal regards to you, Mrs. Kung and Gregory.

Sincerely,

Mr. Louis Kung

The President told the VP this morning -- he was in ~~Whittier~~
Whittier College at the time -- he went back to see Whittier High
School -- the auditorium at ~~Whittier~~ High School suffered such bad
damage it had to be taken down. It was an auditorium in which the
President had participated in oratorical debate contests, etc.

East ~~Whittier~~ Whittier School - grade school had to be torn down.
school where the President had gone

His Aunt was living in Long Beach and he remembers riding down
there to get her with his father.

Mostly he recalls the sound -- it is not just the shaking - it sounds
like thunder
