MEMORANDUM FOR:

KEN COLE

FROM:

JIM CAVANAUGH 

Elmer Bobst is back in the country using the telephone. He has some concerns about the Foundation and wanted the following thoughts passed on to the "right person":

1. The Foundation Board needs more "men of means" who can afford to give a million dollars each. (He says the brothers and Bob Finch can't.)
2. The location of the library should not be "off the beaten track" at the President's college.
3. It should be within 30 to 40 miles of San Clemente.
4. A budget of \$30 - 35 million dollars should be planned.
5. The library should be placed on 40 to 50 acres of property and have an auditorium, museum, eating and parking facilities adjacent to it.
6. Mr. Bobst thought a location next to USC might be the right spot or perhaps something closer to San Clemente.

O.K.?
